¹MTH 122/123 are prerequisites for other courses and are not part of the Biology major. MTH 124 and/or MTH 201 will substitute for MTH 122 and MTH 123. CHM 461 is required for preprofessional students but is not part of the Biology major. Students have the option of taking the **Math Proficiency Tests for MTH 122 and/or 123 online:** www.qvsu.edu/s/mv²Students will not need to take WRT 150 if they have earned credit for the course through AP/Dual Enrollment. A grade of C or better is required in WRT 130 or 150 in order to satisfy the WRT requirement at GVSU.³Students planning on professional or graduate school should complete CHM 241, CHM 242, CHM 461, and PHY 220 and PHY 221. See the Preprofessional Advisors in the CLAS Academic Advising Center for more information.⁴Students must complete a minimum of 41 credits of Biology coursework. See reverse for required Category elective courses.⁵Choose one of the following to complete the math cognate for the major: MTH 125: Survey of Calculus, MTH 201: Calculus, or STA 215: Introductory Applied Statistics. Students who don't place into MTH 201 should take MTH 124 as a prerequisite instead of MTH 122+123.⁶Students must complete a total of two courses with an SWS attribute.

⁷ Students must have a **minimum of 120 credits** to graduate with **58 of the 120 credits** being from a senior level institution and the **final 30 of the 120 credits** completed at GVSU. Elective refers to any course that will help meet these requirements.

Declaring the Biology-General Major:

1. In myBanner, select “Student” > “Student Records” > “Change Major” > “Change Major 1/Program”
2. Choose “Biology-(BA or BS)-General Biology” from the drop-down box.
3. Click “Submit” and then “Change to New Program”
4. Declare “**Preprofessional Preparation**” as your SECOND MAJOR if you are planning on medical, dental, pharmacy, or optometry school.
→ If you are Pre-Veterinary, the **Biology with Pre-Veterinary emphasis** is recommended

General Education Categories fulfilled by the Biology major:	
Life Science and Physical Science: BIO 120 and CHM 115 (both fulfill lab requirement)	
Mathematical Sciences: STA 215, MTH 122, MTH 123, MTH 201	
Additional Overlap for Preprofessional Students	
Social and Behavioral Sciences: PSY 101	Social and Behavioral Sciences: SOC 101

Students must complete one course from Categories I, II, and V, and one course from either Category III or IV.		
The BIO-General major requires a total of 41 credits of BIO classes, including certain CMB and BMS courses. Elective courses may only count in one category.
