\*\*The block tuition rate is for 12-15 credits. You will pay additional tuition for any credits over 15.

<sup>1</sup> Students must demonstrate competency in college algebra and trigonometry as a prerequisite to veterinary school admission. Consult with your advisor regarding the math requirements for Veterinary school and the Biology major to determine the appropriate courses to take.**To take the Math Proficiency Tests for MTH 122 and/or 123 online, visit this link: [gvsu.edu/s/mv](https://gvsu.edu/s/mv)**<sup>2</sup>Elective refers to any course that can apply towards the 120 credit needed to graduate.

<sup>3</sup>Students will not need to take WRT 150 if they have earned credit for the course through AP/Dual Enrollment. A grade of C or better is required in WRT 130 or 150 in order to satisfy the WRT requirement at GVSU.

<sup>4</sup> Choose one of the following to complete the math cognate for the major: MTH 125: Survey of Calculus, MTH 201: Calculus, or STA 215: Introductory Applied Statistics. Students who don't place into MTH 201 should take MTH 124 as a prerequisite instead of MTH 122+123.

<sup>5</sup>**Students must complete a minimum of 41 credits of Biology coursework.** If students still do not have 41 credits of Biology coursework after completing both the Biology core requirements (above) and the requirements for their chosen emphasis (below), they should select additional Biology courses from the elective categories, BIO Issues courses, credits in research (BIO 499), or internship credit (BIO 490). Students should consult with a Biology advisor prior to selecting elective courses.

<sup>6</sup> Students must complete a total of two courses with an SWS attribute.

**Declaring the Biology-Pre-Veterinary Medicine Major:**

1. In myBanner, select "Student" > "Student Records" > "Change Major" > "Change Major 1/Program"
2. Choose "Biology-BA or Biology-BS PreVeterinary Medicine" from the drop-down box.
3. Click "Submit" and then "Change to New Program"

<b>General Education Categories fulfilled by the Biology major:</b>
Life Science and Physical Science: BIO 120 and CHM 115 (both fulfill lab requirement)
Mathematical Sciences: STA 215, MTH 122, MTH 123, MTH 201

**Students must complete one course from Categories I and II.**

The BIO-PREVET major requires a total of **41 credits** of BIO classes, including certain CMB and BMS courses. Elective courses may only count in one category. **Classes marked with a \* are recommended for Prevet students.**
