^{*}The block tuition rate is for 12-15 credits. You will pay additional tuition for any credits over 15.

¹Chemistry majors who have AP/IB Credit in CHM 115 and/or CHM 116 are generally better prepared for higher level chemistry courses if they take CHM 115 and CHM 116 at GVSU.

² MTH 124 is not part of the major but may be required depending on math placement. *To take the Math Proficiency Tests online, visit this link:* gvsu.edu/s/mv

³Students who self-place into WRT 120 should take course in the fall and WRT 130 in the winter of their first year. Students won't need to take WRT 150 if they've earned credit for WRT 150 through AP/Dual Enrollment. A grade of C or better is required in WRT 130/150 in order to meet GVSU's WRT requirement ⁴CHM 241 and CHM 242 may substitute for CHM 245/246/247/248 with advisor approval.

⁵ If planning to attend graduate school, students are advised to consult with their advisor about selecting the following: PHY 230/231 instead of PHY 220/221; CHM 356 and CHM 358 instead of CHM 351; MTH 202 in addition to MTH 201.

⁶ Students must have a **minimum of 120 credits** to graduate with **58 of the 120 credits** being from a senior level institution and the **final 30 of the 120 credits** completed at GVSU. Elective refers to any course that will help meet these requirements.

⁷ See below for major electives. Students are encouraged to work with their faculty in selecting elective courses.

Declaring the Biochemistry Major:

- 1. In myBanner, select "Student" > "Student Records" > "Change Major" > "Change Major 1/Program"
- 2. Choose "Biochemistry-BS" from the drop-down box.
