Biomedical Sciences (2012-2013)

General

This is a **general curriculum** guide and is not applicable to every student and is not a replacement for meeting with your advisor.

-Assumes that the MTH 110 prerequisite has been fulfilled-

Fall Semester – Year One		credits	Winter Semester- Year One	credits
BIO 120: General Biology I (Gen Ed)		4	CHM 116: Principles of Chemistry II	5
CHM 115: Principles of Chemistry I (Gen Ed)		5	WRT 150: Strategies in Writing	4

^{*}The block tuition rate is for 12-15 credits. You will pay additional tuition for any credits over 15.

Notes:

¹Major electives must consist of at least 6 hours of upper-division Biomedical Science courses (BMS 300, BMS 302-373, BMS 375-494, BMS 496-599, BIO 422: Embryology, BIO 405/406 Cell and Molecular Biology w/Lab or CHM 461: Biochemistry may be included in these six hours; BMS 301 Intro to Research, BMS 374 Physiological Aspects of Death and Dying and BMS 495 Concepts in Wellness cannot be used as electives).

Special Notes:

- A. This is a **general** curriculum guide and will not work for everyone, especially those students who have AP, IB or CLEP credit. For students without high school chemistry, CHM 109 is strongly encouraged.
- B. Courses that have (Gen Ed) written after them are classes that are required in the major and also fulfill a section of the general education program.
- C. Students must complete a total of two courses with an SWS attribute.
