^{*}The block tuition rate is for 12-15 credits. You will pay additional tuition for any credits over 15

¹Transfer and incoming students with BIO 120 credit may substitute BIO 120 for CMB 155 but will still need to take CMB 156. CMB majors who have AP/IB Credit in BIO 120, CHM 115 and/or CHM 116 are generally better prepared for higher level courses if they take CMB 155+156, CHM 115 and CHM 116 at GVSU. **CHM 100** is recommended prior to CHM 115 if the ACT science subscore is below 23. CHM 100 does not count toward the CMB major. CHM 100 has a corequisite of MTH 110.

² Math proficiency exams are available for MTH 122 and MTH 123. *To take the Math Proficiency Tests online, visit this link: gvsu.edu/s/mv*³Students who self-place into WRT 120 should take this course in the fall semester and then take WRT 130 in the winter semester of their first year. Students will not need to take WRT 150 if they have earned credit for the course through AP/Dual Enrollment. A grade of C or better is required in WRT 130 or 150 in order to satisfy the WRT requirement at GVSU.

⁴ Elective refers to any course that will help you earn the required 120 credits to graduate; see list below for suggested elective courses ⁵Students may choose CHM 245, 246, 247, and 248 in place of CHM 241 and 242

Option A: MTH 125 Survey of Calculus, PHY 220 General Physics I, and PHY 221 General Physics II

Option B: MTH 201 Calculus I, MTH 202 Calculus II, PHY 230 Principles of Physics I, and PHY 231 Principles of Physics II

⁷Students must complete a total of two courses with an SWS attribute

Declaring the Cell and Molecular Biology Major:

- 1. In myBanner, select "Student" > "Student Records" > "Change Major" > "Change Major 1/Program"
- 2. Choose "Cell and Molecular Biology-BS" from the drop-down box.
- 3. Click "Submit" and then "Change to New Program"
- **4.** Declare "**PreProfessional Preparation**" as your SECOND MAJOR if you are planning on chiropractic, medical, dental, podiatry, pharmacy, or optometry school.
