*The block tuition rate range is 12-15 credit hours a semester. If you take more than 15 credit hours additional tuition will be assessed.

A Bachelor of Science requires the following course sequence: STA 215, PSY 300 and SAT 495. Alternatively, a Bachelor of Arts (B.A.) requires a third semester proficiency in a foreign language. A separate plan for a Bachelor of Arts is available.

The students' choice of Endorsements will determine if both PSY 310 and PSY 326 are required. Both courses are highly recommended.

****The following Honors sequences are suggested for CSAT majors** as these sequences also take care of the history requirement for the major:

American Civilization	Classical World
Focus on East Asia	European Civilization
Making of Europe	Latin American Civilization
History of Science	

All above sequences EXCEPT American Civilization also fulfill the World Perspectives (WP) requirement. If you do not fulfill WP through your Foundational sequence, you can fulfill this requirement through the Honors Social Science courses or Honors Junior Seminars that are noted as meeting this requirement.

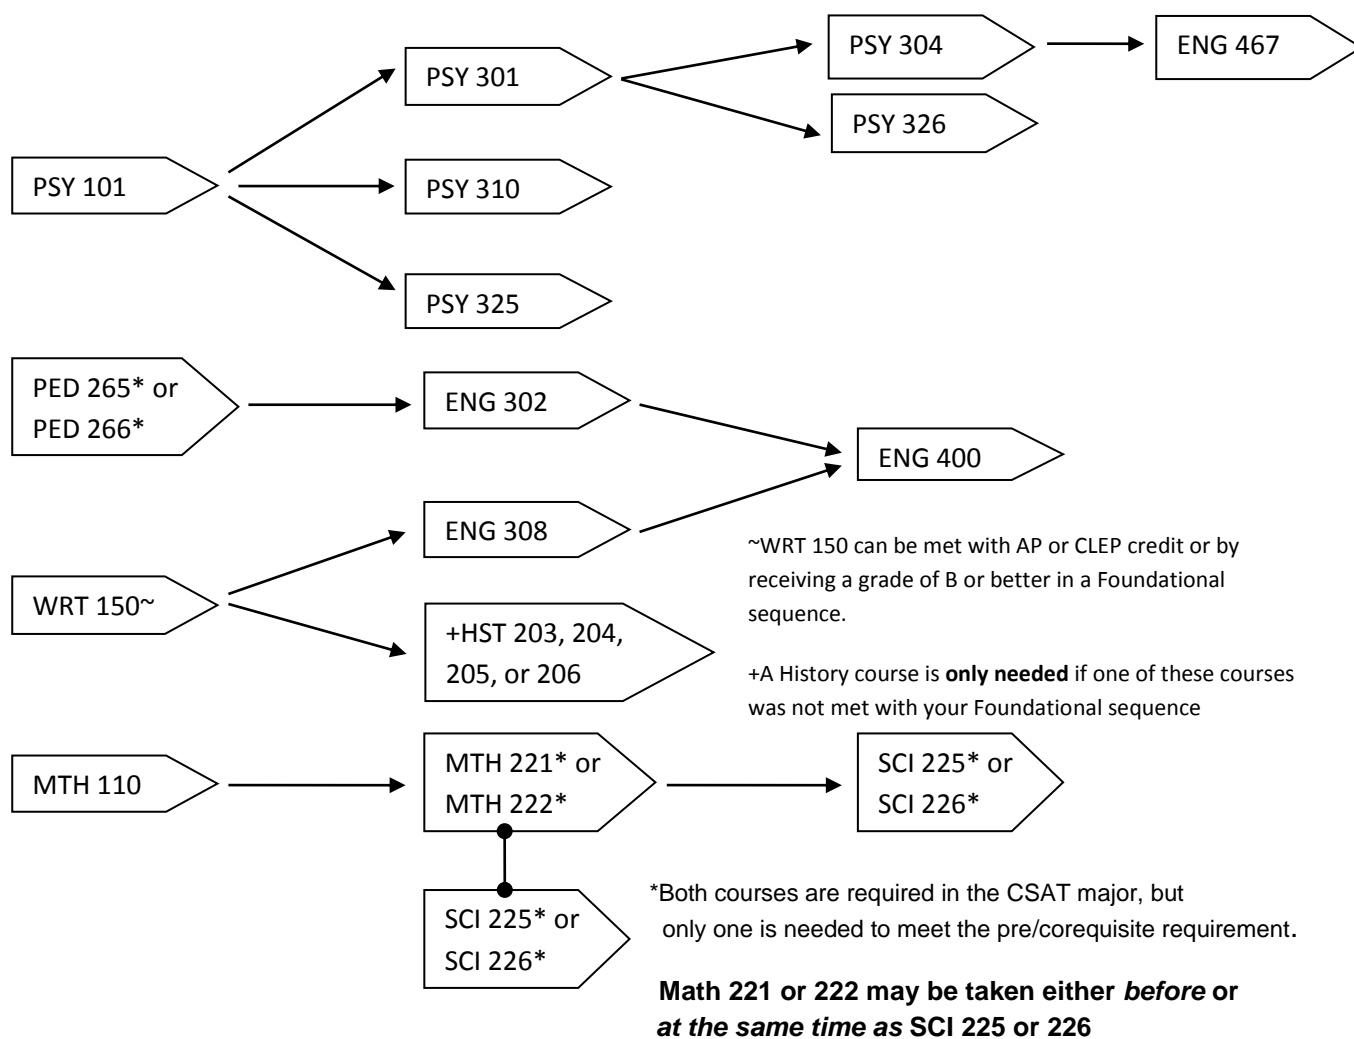

If you choose a different Foundational sequence, you will need to add one of the following to your plan: HST 203, 204, 205 or 206.

***If you have AP, IB, CLEP or dual enrollment credit for PSY 101 you can take PSY 301 or both PED 265 and 266 in the first fall.

It is imperative to meet with your faculty advisor and an advisor in the CLAS Academic Advising Center regularly.
The CLAS Academic Advising Center is located in C-1-140 MAK, 616-331-8585.
