* The block tuition rate is 12-15 credits. You will pay additional tuition for any credits over 15.

¹ Students who self-place into WRT 098 should take this course in the fall semester and then take WRT 150 in the winter semester of their first year. Students who self-place into WRT 150 should normally take this course in the winter semester of their first year.

Students will not need to take WRT 150 if they have earned credit for the course through AP/Dual Enrollment. A grade of C or better is required in WRT 150 in order to satisfy the WRT 150 requirement at GVSU.

² Students must complete a total of two courses with an SWS attribute³ EDS 379 may be taken prior to the Teacher Assisting Semester but must be completed prior to Student Teaching. Permit required (COE – 616-331-6650).

Prerequisites for EDS 379: Sophomore Standing, EDF 315, and EDI 337. B- or better required.

⁴Permit required – students must secure a mentor and define a research question before enrolling in the course.**It is imperative to meet with your faculty advisor and an advisor in the CLAS Academic Advising Center regularly.****The CLAS Academic Advising Center is located in C-1-140 MAK, 616-331-8585.**Online at: <http://www.gvsu.edu/clasadvising>

⁵ For students with the Advanced Waiver/Override for Mathematics based on ACT scores, it is **STRONGLY RECOMMENDED** that proficiency in MTH 123 – Trigonometry – be demonstrated by either taking the MTH 123 course or by achieving a passing score on the GVSU math placement test **PRIOR** to taking PHY 220 and 221.

⁶ **Students with an ACT Science Subscore below 22 tend to be more successful if they only take one science course during the Fall semester of Year 1.** CHM 180 is recommended prior to CHM 115 if chemistry was not taken in high school or if the ACT science subscore is below 22. However, CHM 180 does NOT count toward the Earth Science major.

Earth Science students only have the option of a Bachelor of Science degree. The BS degree requirements are incorporated into the major requirements and include GEO 211, GEO 212, and MTH 123.

Declaring the Earth Science and Education Major with Teachable Minor:
