¹Students who self-place into WRT 120 should take this course in the fall semester and then take WRT 130 in the winter semester of their first year. WRT 150 can take it in either semester during their first year. Students will not need to take WRT 150 if they have earned credit for the course through AP/Dual Enrollment. A grade of C or better (**NOT A C-**) is required in WRT 130 or 150 to satisfy the WRT requirement.

²Students with an ACT Science sub score below 22 tend to be more successful if they only take one science course during the Fall semester of Year 1.

³SWS = Supplemental Writing Skills. Students must complete 2 courses with a SWS attribute.

⁴The preferred entry to the major is GEO 111, but GEO 100, 103, or 105 can count toward the major instead of GEO 111

⁵Students must take GEO 486 (Fall Only) and GEO 485 (Winter Only). The preferred order is to take GEO 486 first and students are encouraged to identify a project and mentor early.

⁶Elective refers to any course to help you earn the required 120 credits to graduate. However, students should consider adding a complementary minor or certificate. See both your Academic advisor and Faculty Advisor for more information.

⁷**CHM 109 is recommended prior to CHM 115 if chemistry was not taken in high school or if the ACT science sub score is below 22. However, CHM 109 does NOT count toward the Geo-Chemistry major.**

*Students must have a minimum of 120 credits to graduate with 58 of the 120 credits being from a senior level institution like GVSU and the final 30 credits of the 120 credits are specifically to be completed at GVSU. Elective refers to any course that will help meet these requirements.

*The block tuition rate is for 12-15 credits. You will pay additional tuition for any credits over 15. For more information contact the Office of Financial Aid.

*A major GPA of 2.0 or higher within the major is required to graduate.

Declaring the Geology-Chemistry Major:

1. In myBanner, select "Student" > "Student Records" > "Change Major" > "Change Major 1/Program"
2. Choose "Geology-Chemistry-BS" from the drop-down box.
3. Click "Submit" and then "Change to New Program"

It is imperative to meet with your **FACULTY ADVISOR** and an advisor in the CLAS Academic Advising Center regularly.

CLAS Advisors: Your advisors in the CLAS Academic Advising Center are Alyssa Myers (gunnalys@gvsu.edu) and Khalaya Daniels (daniekha@gvsu.edu).
