* The block tuition rate is 12-15 credits. You will pay additional tuition for any credits over 15.

¹ Students who self-place into WRT120 should take this course in the fall semester and then take WRT 130 in the winter semester of the first year. Students who self-place into WRT 150 should take this course in either semester of the first year. A grade of C or higher is required to fulfill these requirements.

² Elective refers to any course to help you earn the required 120 credits to graduate.

³Students must complete a total of two courses with an SWS attribute.

⁴**Students with an ACT Science Subscore below 22 tend to be more successful if they only take one science course during the Fall semester of Year 1.**

⁵Students must take GEO 486 (only fall semester) and GEO 485 (only winter semester) – the preferred order is to take GEO 486 first and students are encouraged to identify a project and mentor early

⁶The preferred entry to the major is GEO 111, but GEO 100, 103, or 105 can count toward the major instead of GEO 111.

CHM 109 is recommended prior to CHM 115 if chemistry was not taken in high school or if the ACT science subscore is below 22. However, CHM 109 does NOT count toward the Geo-Chemistry major.
