\* The block tuition rate is for 12-15 credits. You will pay additional tuition for any credits over 15.

EDF 100 is an exploratory elective for students uncertain about pursuing teacher certification. It can be taken in either the fall or winter semester.

PHY 280 – Forces and Energy (2 credits, Fall semester) and PHY 280 – Electricity and Magnetism (2 credits, Winter semester) together can replace PHY 200 – Physics for the Life Sciences (4 credits) in the Integrated Science major.

It is imperative to meet with your faculty advisor and an advisor in the CLAS Academic Advising Center regularly.

The CLAS Academic Advising Center is located in C-1-140 MAK, 616-331-8585.

Online at: <http://www.gvsu.edu/clasadvising>

<sup>1</sup> Students who self-place into WRT 098 should take this course in the fall semester and then take WRT 150 in the winter semester of their first year. Students who self-place into WRT 150 should normally take this course in the winter semester of their first year.

Students will not need to take WRT 150 if they have earned credit for the course through AP/Dual Enrollment. A grade of C or better is required in WRT 150 in order to satisfy the WRT 150 requirement at GVSU.

<sup>2</sup> Students must complete a total of two courses with an SWS attribute.

<sup>3</sup> GEO 201 is only offered in the fall semester. SCI 336 is offered only the fall and spring/summer (1<sup>st</sup> six weeks) semesters.

<sup>4</sup> EDS 378 may be taken prior to the Teacher Assisting Semester but must be completed prior to Student Teaching. Permit required (COE – 616-331-6650).
