THIS IS A **GENERAL** CURRICULUM GUIDE AND IS NOT APPLICABLE TO EVERY STUDENT. IT IS IMPORTANT TO MEET WITH YOUR ADVISOR.

This sample plan assumes that the MTH 110 requirement has been fulfilled. If MTH 110 is needed, students should take the course in the first semester in place of the chemistry option and move chemistry to the winter semester in place of the elective option.

\*The block tuition rate is for 12-15 credits. You will pay additional tuition for any credits over 15.

A total of 120 credits are required for graduation. Please supplement your schedule with elective courses to reach the required 120 credits.

**\*Students who have fulfilled the MTH 122 or 123 requirement based on ACT or SAT scores are still required to complete a college level mathematics course higher than MTH 110. Students should choose from MTH 125 or MTH 201.**

<sup>1</sup>Students have the option of starting in BIO 120 or 121 in the fall semester. BIO 120 requires a prerequisite of high school chemistry or CHM 109 or 115 (can be taken concurrently). BIO 121 as a pre- or co-requisite of MTH 110.

**Students who have an ACT science sub-score of 22 and below should start with BIO 121.**

It is imperative to meet with your faculty advisor and an advisor in the CLAS Academic Advising Center regularly.

The CLAS Academic Advising Center is located in C-1-140 MAK, 616-331-8585.

Your advisor in the CLAS Academic Advising Center is Emily Davis ([davisem1@gvsu.edu](mailto:davisem1@gvsu.edu)).

<sup>2</sup>NRM majors must complete a total of **36 credits of NRM courses** with a GPA of 2.0 or better. Please see reverse for additional NRM options.

<sup>3</sup>Students should consider adding a complementary minor or certificate – speak with an academic advisor to discuss options.
