

DUAL DEGREE FACT SHEET

CONCORDIA
UNIVERSITY
WISCONSIN

SCHOOL OF
PHARMACY

ADMISSION PROCESS

Candidates for admission to a dual degree program must first meet CUWSOP admissions requirements and then complete a supplemental application for the desired master's program. Admission to each program is reviewed and approved by the master's program process.

PharmD/MBA BUSINESS ADMINISTRATION

Tomorrow's pharmacy leaders are being formed today. This degree combination provides an exceptional path for graduates to prepare for management, administrative, entrepreneurial, and leadership roles in pharmacy and healthcare organizations.

TIMELINE TO DEGREE COMPLETION:

Concurrent with PharmD degree

CONTACT:

Kaylan Gaines Director of Recruitment & Admissions
kaylan.gaines@cuw.edu

Jessica Valdes MBA Program Coordinator
jessica.valdes@cuw.edu

HIGHLIGHTS:

- Gain admission into dual degree prior to starting P1 year or anytime thereafter
- Begin MBA coursework as early as P1 year
- Earn up to 19 credits that count towards both degrees, leaving as little as 20 additional MBA credits taken outside of PharmD curriculum
- No GRE or GMAT required
- Online and face-to-face courses allow for self-paced, flexible schedule
- Can be completed concurrent with PharmD coursework or extended as student desires

PharmD/MPH PUBLIC HEALTHCARE

As healthcare reform continues to be at the forefront of the healthcare industry, prevention focused public health is projected to grow in demand and importance. Pharmacists can and should play a critical role in leading this discussion. The MPH dual degree program allows students to focus on a medication safety and pharmacovigilance concentration to complement their passion for service and desire to improve public health.

COLLEGE PARTNER:

Concordia University Nebraska

Audrey Kostrzewa Program Coordinator
audrey.kostrzewa@cuw.edu

HIGHLIGHTS:

- Gain admission into dual degree prior to starting P1 year or anytime thereafter
- No GRE or GMAT required
- 39 credits: 12 credits through CUW count toward both degrees, remaining 27 credits through Concordia University Nebraska
- Online format allows for flexible schedule
- Can be completed concurrent with PharmD coursework or extended as student desires

PharmD/MPD PRODUCT DEVELOPMENT

Born out of collaboration with industry partners, the innovative Master of Science in Product Development gives students hands-on and industry-relevant experience taught by experts in the field. Students will choose one of two concentrations: Pharmaceuticals or Chemicals. As the only degree of its kind, graduates are prepared to fill an unmet need and become future leaders in the product development industry.

TIMELINE TO DEGREE COMPLETION:

Concurrent with PharmD degree plus 1 additional year
