\* The block tuition rate is for 12-15 credits. You will pay additional tuition for any credits over 15.

EDF 100 is an exploratory elective for students uncertain about pursuing teacher certification. It can be taken in either the fall or winter semester.

It is imperative to meet with your faculty advisor and an advisor in the CLAS Academic Advising Center regularly.  
 The CLAS Academic Advising Center is located in C-1-140 MAK, 616-331-8585. Online at: <http://www.gvsu.edu/clasadvising>  
 Your Academic Advisor in the CLAS Advising Center is Emily Davis, [davisem1@gvsu.edu](mailto:davisem1@gvsu.edu).

<sup>1</sup> Students must take MTH 110, MTH 122 and MTH 123, or MTH 124, or place out of these courses through Grand Valley math placement. These courses do not count towards the completion of the Physics major. MTH 124 is the suggested pre-requisite to MTH 201, though MTH 122 and 123 would also satisfy the pre-requisite requirements.

<sup>2</sup> Students must complete a total of two courses with an SWS attribute

<sup>3</sup> Students must complete 6 hours of science electives with a minimum grade of C (2.0) in each. Must be chosen from the following: PHY 105 (requirement for secondary education majors); any 300 or 400 level physics elective (excluding PHY 303, 306, and 307); CHM 351, 352, 356, or 358

<sup>4</sup> Students must take BIO 328: Biomedical Ethics **OR** BIO 338: Environmental Ethics.

<sup>5</sup> See faculty advisor for additional option for CIS 261.

<sup>6</sup> EDS 379 may be taken prior to the Teacher Assisting Semester but must be completed prior to Student Teaching. Permit required (COE – 616-331-6650).

<sup>7</sup> MTH 401 is recommended unless student does not intend to pursue graduate school, please see faculty advisor for assistance in choosing appropriate course

<sup>8</sup> MTH 304 is recommended unless student does not intend to pursue graduate school, please see faculty advisor for assistance in choosing appropriate course.

<sup>9</sup> Students who self-place into WRT 120 should take this course in the fall semester and then take WRT 130 in the winter semester of their first year. Students who self-place into WRT 150 should normally take this course in the winter semester of their first year. Students will not need to take WRT 120/130 or WRT 150 if they have earned credit for the course through AP/Dual Enrollment. A grade of C or better is required.

<sup>10</sup> CHM 180 is recommended prior to CHM 115 if the ACT science subscore is below 23, but high school chemistry was taken. Students who have not had high school chemistry should take CHM 109 (not CHM 180) prior to CHM 115. However, CHM 180 and CHM 109 do NOT count toward the Physics major.

**-Thirty (30) total hours as a lab assistant (setting up and tearing down equipment and/or serving as teaching assistant) are required of students seeking secondary certification. Contact the department for further details.**
