December 2021 | Test Prep & School Research

Welcome to the December PreProfessional Team Newsletter! This month is all about test preparation and researching schools. We hope you find these resources helpful as you continue developing your professional school application. As always, the CLAS PreProfessional Advising Team is here to help and we welcome any questions you have along the way.

Test Prep Course

The CLAS Advising Center coordinates the Test Prep course for students preparing for the MCAT, DAT, OAT and PCAT. **For the Winter 2022 semester, the course will be offered on Thursday nights from 6:00-9:00pm on the Allendale campus.** The class begins on January 20th and runs through late March/early April, depending on the test for which you are preparing. **The course fee is \$60 for DAT, PCAT, and OAT test takers; and \$80 for MCAT test takers (the higher fee is due to additional sessions).**

The opening night provides an overview of the course, entrance exams and professional school applications. The following weeks consist of a review session of a subject covered on the entrance exams; subjects include the following and are taught by GVSU faculty who continue to receive very positive evaluations:

- Biology
- Math/Quantitative Analysis
- Critical Analysis/Reasoning/Reading Comprehension
- General Chemistry
- Organic Chemistry
- Biochemistry
- Sociology
