<p>*Students must complete a total of two courses with an SWS attribute</p> <p>*You must have a total of 120 credits to graduate from Grand Valley State University (you are encouraged to complete an average of 15 credits per semester)</p> <p>*Supplement major courses with general education courses when scheduling</p> <p>*The block tuition rate is for 12-15 credits. You will pay additional tuition for any credits over 15</p> <p>*A major GPA of 2.0 or higher is required.</p>

¹ Students who self-place into WRT 098 should take this course in the fall semester and then take WRT 150 in the winter semester of their first year. Students who self-place into WRT 150 should normally take this course in the winter semester of their first year.

Students will not need to take WRT 150 if they have earned credit for the course through AP/Dual Enrollment. A grade of C or better is required in WRT 150 in order to satisfy the WRT 150 requirement at GVSU.

If you have received a minimum score of 3 on the **Advanced Placement (AP) Test in Psychology**, or have **CLEP or Dual Enrollment** credit for Introductory Psychology, you may take one 300-level (not PSY 300) course for which introductory psychology is the prerequisite during the second semester of your Freshman year.

NOTES:

- Psychology majors are strongly encouraged to choose a minor that provides knowledge and skills relevant to their chosen career.
- For those planning on pursuing a Ph.D. in psychology, research experience is crucial. Two years of research experience are highly recommended. PSY 499 is just one way to gain research experience. Consult with your faculty advisor to plan the types of research experience that would be most relevant to you. A minor in Applied Statistics can be useful.
- For those planning on pursuing employment directly after graduation or continuing on for a master's of social work degree, practical field experience through volunteering and the PSY 490 Practicum can be very valuable.
