Veterinary School Fact Sheet

What degree can I earn?
D.V.M. = Doctor of Veterinary Medicine
For 2020, there were 8,152 applicants for D.V.M. programs for approximately 3,719 seats (including 32 U.S. Veterinary schools, 5 Canadian, and 11 international institutions). Although most programs don't require a bachelor's degree, the majority of admitted D.V.M. students have a 4-year degree.

What is the nature of this profession?
Veterinarians play a major role in the healthcare of pets, livestock and zoo, sporting and laboratory animals. Veterinarians may work in an office, or travel to farms to work on animals. Some veterinarians are employed in public health and research. Long hours are often required. Evening and weekend hours are typical, as well as being on call for emergency situations.

Where can I find additional information about veterinary medicine?
The American Veterinary Medical Association (AVMA) www.avma.org.

Please note that prerequisites may vary from school to school. Due to variations in admission requirements and procedures, it is advisable to research different veterinary programs. Visit https://www.aavmc.org/assets/Site_18/files/VMCAS/VMCASprereqchart.pdf to see the specific prerequisite course requirements for all veterinary schools. In addition, see your faculty advisor or an advisor in the CLAS Academic Advising Center for assistance in choosing elective courses.

C or better grades are required for prerequisite courses.

GRE
Currently only eight (8) vet schools require the Graduate Record Exam (GRE) General Test as part of their admissions process. Check the admissions requirements of the schools you are interested in.
The national GRE average for applicants accepted to veterinary school fluctuates minimally from year to year. Recently reported has been 59th percentile for GRE Verbal and 45th percentile for Quantitative.

GPA
To gain entrance to veterinary school, usually a minimum cumulative collegiate GPA above 3.0 is required. All attempts of each course are counted in GPA calculations if a student has repeated courses.
The national GPA average for applicants accepted to veterinary school fluctuates minimally from year to year, but is typically around 3.50
Recently, the average science prerequisite GPA at Michigan State University Veterinary School was 3.36 and a last-3-semester GPA of a 3.54. You should check with individual colleges to determine a competitive GPA.
Besides a strong GPA (and GRE if applicable) veterinary schools look for the following:

- **Animal experience**: Significant Clinical Volunteer Experience with large and small animals
- **Shadowing a Veterinarian**
