

# Menstrual Hygiene Drive

## NATIONAL PUBLIC HEALTH WEEK 2017

April 3-9 is National Public Health Week. To promote public health, Grand Valley State University's Public Health Society is hosting a menstrual hygiene product drive to support The Grand Rapids Red Project. All donations will serve disadvantaged women that seek health and hygiene services in Grand Rapids.

Please donate new boxes of tampons, pads, menstrual cups, and other menstruation care products. We are collecting until April 10.

For more information about this drive, contact Samantha Radecki at [radeckis@mail.gvsu.edu](mailto:radeckis@mail.gvsu.edu). To learn more about the Grand Rapids Red Project, visit their website at [redproject.org](http://redproject.org).
