PSY 101: Introductory Psychology

Course Syllabus, sections 10 & 14
Grand Valley State University, Department of Psychology
Winter 2023

Instructor Information

Professor: Paolo Campus, Ph.D.

Office: 2115 Au Sable Hall

Email: campusp@gvsu.edu

Phone: 616 331 2195

Office Hours: Tuesday/Thursday 4:00 p.m. - 6:00 p.m., or by appointment.

How to contact me: The best way to contact me is via e-mail. I will do my best to reply within 24 hours to e-mails received during business hours (Monday-Thursday, 9:00 a.m. - 5:00 p.m.). I will be in limited contact during weekends, and I won't be able to reply until the following Monday. For urgent communication, make sure to write "URGENT" in the subject line of the e-mail, and I will do my best to reply as soon as possible.

Feedback. Over the course of the semester, you are welcome to give me your feedback about the course. If you have any doubt or concern, please feel free to contact me by either sending an e-mail or by scheduling an appointment.

Course Information

Credits: 3

Prerequisites: None.

Course Format: Traditional (face-to-face). Material presented in class lectures and discussions will reflect textbook material; however, not all in-depth information in the textbook will be presented in class. You will be responsible for material that is both covered in lecture and assigned from the textbook.

Class Meetings Location & Time:

- PSY 101 10: LMH 114, T/R 11:30 a.m. 12:45 p.m.
- PSY 101 14: LMH 114 T/R 1:00 p.m. 2:15 p.m.

Course Overview. This course is designed to offer an introduction to the field of Psychology, the discipline that studies how and why we think, feel, and behave, through the scientific investigation of mind, brain, and behavior. The course is divided into four learning modules. Each module covers 3-4 chapters of the textbook (see below for details).

- 1. In the first module we will discuss the scientific foundations of Psychology, including a brief historical perspective, structure and functions of the brain, and common research strategies used by experimental psychologists.
- 2. In the second module we will discuss the mental processes underlying cognition. Topics include sensation & perception, learning & memory, thoughts & problem solving, emotions & motivation, and human language.
- 3. In the third module we will discuss topics such as human development, social interactions, personality, and individual differences.
- 4. In the fourth and last module, we will discuss the categorization, diagnosis, and treatment of psychological disorders, including affective disorders (e.g., depression, bipolar disorder), anxiety disorders, schizophrenia, personality disorders, psychopathy, antisocial behaviors, and substance abuse.

Course Objectives. This course will give you the scientific bases for understanding human nature, including how and why we feel certain emotions, how we handle stress, how we learn new information and how we remember the past and, in general, why we behave the way we behave. Over the course of the semester, we will reflect over a variety of psychological phenomena related to our everyday life, their underlying theories and the research strategies used by psychologists to investigate them. By the end of the semester, we will build a fundamental understanding of the relationship between mental processes, brain functions, and behavioral outcomes. We will discuss the role of nature/nurture interactions in determining individual differences in cognitive, emotional, motivational, and social behaviors and how the unique configuration of these different psychological domains contribute to the emergence of unique personality traits, social skills, and vulnerability/protection to psychopathology.

How to succeed. To do well in this course, you will have to:

- Read the appropriate chapters in the textbook and the corresponding lecture slides.
- Complete the course assignments (i.e., exams) and enrichment activities (see details below). Exams will contain a mixture of content from the textbook and from class lectures. Therefore, although I will not take class attendance, I strongly recommend you attend classes.
- Make sure to check the course Blackboard page frequently to keep up with announcements, lecture slides, exams, and additional materials/info.

Required Materials

Textbook: Phelps, E. A., Berkman, E. T., Gazzaniga, M. S. (2022). *Psychological Science* (7th edition). Your course is participating in the GVSU SAVE program. This means your course material will be delivered to you via a link on the course's Blackboard page. The course is now live for the semester and you may access your course material at this time. You should have received a "Welcome Email" from Verba/VitalSource that explains the GVSU SAVE program. You have been charged for your course material on your GV student account.

The deadline to opt-out of the SAVE program is Friday, Jan. 20th for normal 15-week courses. Please be aware, if you opt-out you will be responsible for purchasing the required course material on your own. For the instructions to opt-out, and more information about the program visit the GVSU SAVE website at: https://lakerstore.gvsu.edu/gvsusave. If you have any questions or are experiencing any issues, please contact lakersave@gvsu.edu.

Internet Access: All relevant content, such as announcements, lecture slides, assignments, grades, and other additional information will be posted on the course Blackboard page, available at http://mybb.gvsu.edu/.

Computer/Tablet/Smartphone: Blackboard runs on Windows, Linux, iOS, Android, or any other electronical device with an up-to-date web browser.

PDF Reader: Some material in this course may be presented in PDFs. To view these materials, you will need a <u>PDF reader</u>.

Word Processor: You will need a word processing software (e.g., Microsoft Office, Google Docs, etc.,) to complete some course assignments. <u>Office 365</u> is available for free for personal computers/devices for qualifying GVSU students.

Methods of Evaluation

Grades will be determined by your scores on four types of assessment:

- 1. Exams.
- 2. Homework.
- 3. Media Reporting Critique.
- 4. Enrichment Activities.

You can find below a breakdown of the points assigned and a brief description of the assessments. Further details will be provided in class.

Type of Assignment	Number of Assignments	Points Each	Total Points	% Of Final Grade
Exams (3 midterms + 1 final)	4	60	240	60
Homework	14	5	70	17.5
Media Reporting Critique	2	25	50	12.5
Enrichment Activities	4	10	40	10
Total			400	100

Exams (60% of the final grade). The course will have a total of four exams (3 mid-terms + 1 final), one for each learning module. The final exam will not be cumulative and will only cover the fourth learning module. Each exam consists of 60 multiple choices or fill in the blank questions. The questions will be based on the lectures and on the corresponding book chapters. The exams will be available on Blackboard, at least seven days prior to the due date. You can take the exam anytime during this window. Once you start, the exam can't be stopped and resumed, and must be completed within 50 minutes. During each exam, you may access lecture slides, textbook, notes, and the Blackboard page of the course. However, having 50 minutes to answer 60 questions means you must study for each exam, as you will not have time to look up the answers. Each exam is worth 60 points, for a total of 240 points (60% of the final grade).

Homework (17.5% of the final grade). To keep up with the lectures, encourage continuous learning, and facilitate exam preparation, you will have to complete weekly homework assignments. These homework consist of interactive guizzes and engaging game-like activities available through the InQuizitive link on Blackboard. For each weekly assignment, you must answer a variable number of questions from the textbook chapter discussed over the previous week. The questions are not designed to be difficult or stressful. They are meant to help you study the material covered in class, and retrieve the corresponding information on the textbook. There is no time limits, and you can stop and resume the activity at any time (your progress will be automatically saved). To complete each homework assignment, you must answer at least 10 questions, after which you will be assigned an initial score. Your goal is to reach a Target Score of 800 points before the due date. If you don't reach the Target Score after answering the first 10 questions, you can keep answering more questions until you reach it. That means you will always be able to reach the Target Score. However, that may require answering a different number of questions depending on your level of preparation. Each question comes with the textbook page number where you can find the corresponding information. So, before answering, take your time to check the textbook to increase your chances of answering correctly. In case of an incorrect answer, you will be provided with feedback on why your answer is incorrect. Each homework assignment is worth. You will have

to complete a total number of 14 assignments, each worth 5 points, for a total of 70 points available (17.5% of your final grade).

Media Reporting Critique (12.5% of the final grade). Find and read a news story about a Psychology research study that has been recently published on a digital media source (e.g., news, websites, blogs, etc.,). After reading the news story, find and read the original research article (a link to the original article is usually provided), and write a one-page report (double-spaced, 12 pt. font) that addresses the following questions:

- 1. What is the topic of the reported research?
- 2. What is the main finding according to the journalist?
- 3. What is the importance of the study according to the journalist?
- 4. After reading the original research article, do you think the journalist reported the research in an accurate way?
- 5. Explain why the reporting is accurate/inaccurate.

You will have to write 2 different reports. Each report is worth 25 points, for a total of 50 points (or 12.5% of the final grade).

Enrichment Activities (10% of the final grade). You will have to complete 4 credits of enrichment activities (EA) of your choice (10 points per credit, for a total of 40 points, or 10% of the final grade). Details and instructions are provided below.

Grading Scale: Final grades will be determined at the end of the semester by calculating the total points accumulated. Grading cutoff is as follows:

Percentage	Grade
93-100%	Α
90-92%	A-
87-89%	B+
83-86%	В
80-82%	B-
77-79%	C+
73-76%	С
70-72%	C-
65-69%	D+
60-65%	D
<=59%	F

Tentative Schedule

Note: The instructor reserves the right to change the contents of this syllabus. Students will be given notice of relevant changes in class, through a Blackboard announcement, or through GVSU e-mail.

Date	Topics and Assignments
1/10	Lecture 1: Syllabus & Introduction (Chapter 1)
1/12	Lecture 2: Psychological Science (Chapter 1)
1/17	Lecture 3: Research Methods in Psychology I (Chapter 2)
1/19	Lecture 4: Research Methods in Psychology II (Chapter 2)
1/24	Lecture 5: Brain & Behavior I (Chapter 3)
1/26	Lecture 6: Brain & Behavior II (Chapter 3)
1/27	Homework 1: How to Use InQuizitive
1/29	Homework 2: Chapter 2 - Research Methodology
1/31	Lecture 7: Sensation & Perception I. Vision (Chapter 5)
2/2	Lecture 8: Sensation & Perception II. Audition and the other Senses (Chapter 5)
2/4	Homework 3: Chapter 3 - Biology and Behavior
2/5	Midterm Exam 1 (Chapters 1-3 of the textbook) due at 11:59 p.m.
2/7	Lecture 9: Learning I (Chapter 6)
2/9	Lecture 10: Learning II (Chapter 6)
2/11	Homework 4: Chapter 5 - Sensation and Perception
2/14	Lecture 11: Memory I (Chapter 7)
2/16	Lecture 12: Memory II (Chapter 7)
2/18	Homework 5: Chapter 6 - Learning
2/21	Lecture 13: Thinking, Decision Making and Intelligence (Chapter 8)
2/23	Lecture 14: Language I (Chapter 8)
2/25	Homework 6: Chapter 7 - Memory
2/28	Lecture 15: Language II (Chapter 8)
3/2	Lecture 16: Human Development (Chapter 9)
3/4	Homework 7: Chapter 8 - Thinking, Decisions, Intelligence, and Language
3/7	Spring Break
3/9	Spring Break
3/14	Lecture 17: Emotions & Motivation I (Chapter 10)
3/16	Lecture 18: Emotions & Motivation II (Chapter 10)
3/18	Homework 8: Chapter 9 - Human Development
3/19	Midterm Exam 2 (Chapters 5-8 of the textbook) due at 11:59 p.m.
3/21	Lecture 19: Health & Well-being I (Chapter 11)
3/23	Lecture 20: Health & Well-being II (Chapter 11)

3/25	Homework 9: Chapter 10 - Emotion and Motivation
3/28	Lecture 21: Social Psychology I (Chapter 12)
3/30	Lecture 22: Social Psychology II (Chapter 12)
4/1	Homework 10: Chapter 11 - Health and Well-being
4/4	Lecture 23: Consciousness I (Chapter 4)
4/6	Lecture 24: Consciousness II (Chapter 4)
4/8	Homework 11: Chapter 12 - Social Psychology
4/9	Midterm Exam 3 (Chapters 9-12 of the textbook) due at 11:59 p.m.
4/11	Lecture 25: Psychological Disorders I (Chapter 14 & 15)
4/13	Lecture 26: Psychological Disorders II (Chapter 14 & 15)
4/15	Homework 12: Chapter 4 - Consciousness
4/18	Lecture 27: Psychological Disorders III (Chapter 14 & 15)
4/19	Enrichment Activities Must be Completed by this Date
4/20	Lecture 28: Conclusions
4/22	Homework 13: Chapter 14 - Psychological Disorders
4/27	Research Reports Submission Deadline
4/28	Homework 14: Chapter 15 - Treatment of Psychological Disorders
4/29	Final Exam (Chapters 4, 14-15 of the textbook) due at 11:59 p.m.
5/2	Final Grades

Enrichment Activities

In the Enrichment Activities (EA) portion of the course, students will be given the opportunity to experience psychological research first-hand. Two kinds of enrichment activities are available:

Option 1 involves being a participant in research studies conducted by Psychology Department faculty and students. By participating in psychology research studies, you will directly experience some of the procedures used in psychological research while also making a valuable contribution to the generation of knowledge within the discipline. All studies have been reviewed and approved by the university's Institutional Review Board (IRB), an administrative body established to protect the rights and welfare of human research participants. Some studies may be completed online, while other studies will require you to participate in person at a physical location (usually the Psychology Laboratories in Au Sable Hall). Both online and face to face psychology studies use the Sona Study Scheduling System. If the study requires you to attend a session at a particular location, please arrive before the scheduled time, as studies start punctually. If you sign up for a study session but cannot attend, please cancel your session on-line. Online studies must be completed by the study deadline to get credit. At the beginning of a study session, you will first be given a description of what you will have to do, and then be asked for your consent before the study begins. If you choose

- not to participate, you may leave the study without penalty. Once you have completed a study, you can check to see that you have received credit by selecting My Schedule/Credits. Credits are typically posted within 24 hours after completion of a study.
- 2. Option 2 involves completing activities that will introduce you to a variety of research techniques used in psychological research. By completing research techniques activities, you will engage in activities related to procedures researchers use in their psychological research. For example, you may be asked to watch an exchange between two people and carry out behavioral coding of their interaction. In doing these activities you will gain an understanding of the strengths and limits of various research methods used in psychological science. Research Techniques Activities are listed in SONA Systems along with the research studies. There are no age restrictions on these activities. You may complete each activity only once.

Students must earn four EA credits for this requirement. The credit you earn by completing each EA is a function of the amount of time it takes to complete it. For example, by participating in a brief online study (30 minutes or fewer) you would earn ½ of an EA credit whereas an EA that takes one hour to complete would earn 1 credit. Both types of Enrichment Activities will be available in face to face and online formats. You may complete the EA requirement using any combination of EA types, however, at least two full credits of EAs must be completed in person. Enrichment activities are scheduled and offered through the Sona Study Scheduling System. You will receive an email at the beginning of the semester containing your User ID and an initial password, and a link to the Sona system website at https://gvsu.sona-systems.com. If you do not receive an email regarding your account by the end of the first week of class, please contact Christine Smith at psychlab@gvsu.edu or by phone at 616-331-2424. SONA Systems maintains a strict policy protecting your privacy and confidentiality. This policy is available for review in the Psychology Office. Additional details regarding the enrichment activities and an FAQ are available online at https://www.gvsu.edu/psychology/undergraduate-research-296.htm

Enrichment Activity Deadline: The last day to complete your EA requirement is April 19th, 2023. If you have questions regarding any aspect of the Enrichment Activities, please contact Christine Smith, who can be reached in the Psychology Department Office (2221 Au Sable Hall, 616.331.2424) or by sending an email to psychlab@gvsu.edu.

Class Policies

GVSU Email and Course Communications. Students are responsible for all communications sent via Blackboard and to their GVSU email accounts. GVSU student email can be accessed by visiting: mail.gvsu.edu and Blackboard at: mybb.gvsu.edu.

Assignments and Assessments. Each student is required to complete all learning activities by the due date deadline, as indicated in Blackboard. No learning activities or assignments are accepted late. All assignments, graded discussions, quizzes, exams etc. are submitted

electronically to Blackboard. There are several available computer labs (gvsu.edu/it/lab-hours-66.htm) available for you to complete course work.

Attendance. A large part of the learning in this course comes from not only reading, but attending class and participating in class activities. Therefore, it is to your benefit to take advantage of these learning opportunities. Please note that some exam questions may refer to material covered only in class. You are responsible for all material covered in class whether you attend or not. Be sure to visit the Blackboard page of the course to locate lecture materials you have missed and contact a peer to get more detailed notes. See the university's attendance policy in the online catalog for more information.

Classroom Etiquette. To ensure that everyone has a positive experience, please keep in mind the following:

- Please put your cellphones on silent (not vibrate) for class. Also, please make every
 effort not to text in class. If it becomes distracting, I will ask you to put your phone away
 and may need to speak with you privately after class. Although it is easy to become
 distracted by computers, tablets, and cell phones in class, do try your best to pay close
 attention to class instruction. This will make you a better classmate and a more
 successful student.
- Please arrive to class on time. I will not be able to repeat material if you come in late. After class, be sure to ask a classmate to update you on what you missed.
- You are in a diverse college setting, where your fellow classmates may not share your background, opinions, or rate of learning. Please respect these differences in your classmates and refrain from engaging in disrespectful behavior (e.g., eye rolling, smirking, or teasing). Please also avoid personal conversation during class instruction, as this is both disrespectful and disruptive to your classmates.

University Policies

Last Day to Drop. The last day to drop with a "W" is March 11. Students must initiate drop through Registrar (gvsu.edu/registrar/course-withdrawals-6.htm).

Caring for Students . Your health and your family's health should be your priority. If you are dealing with illness, sick family members, travel difficulties, a bad internet connection, increased anxiety, childcare challenges, or any other issues, please reach out and we will figure out accommodations.

Mental Health. Mental health concerns, including overwhelming stress, excessive worry, difficulty participating in daily activities, and changes in mood, appetite, or sleep patterns can interfere with your academic performance. College student surveys report that roughly 1 out of 3 students screen positive for a current mental health concern (<u>Healthy Minds Study</u>). GVSU values your health and wellness and provides services to support your mental health. If you would like mental health support or are concerned for another member of our campus

community, reach out to the <u>University Counseling Center</u> for free resources, self-help options, and services. Also, visit <u>Campus Recreation & Wellness</u> for additional health and wellness programming.

Disability Support Resources. If you need accommodations because of a learning, physical, or other disability, please contact your instructor and Disability Support
Resources (https://www.gvsu.edu/dsr/). Furthermore, if you have a physical disability and think you will need assistance evacuating this classroom and/or building in an emergency situation, please make me aware so I can develop a plan to assist you. Assistive technology computers are available in many GVSU computer labs (https://www.gvsu.edu/dsr/accessible-computer-labs-68.htm). Also, Blackboard has a commitment to accessibility statement (blackboard.com/accessibility.aspx) providing information about accessibility in all of their products.

Student Code of Conduct. Standards of conduct are established in order to generate an atmosphere in which the goals and objectives of the institution can flourish. Individual rights can only be ensured with acceptance of individual and group responsibilities and respect for the rights of others. Individuals attending GVSU automatically place themselves under the applicable rules and regulations of the institution.

Academic Integrity. All course assignments, learning activities, and assessments, are to be authored and completed individually, by the student themselves. Failure to be able to correctly cite, explain and defend your submissions is an indication that it is not your work. While assisting another student in learning is part of the academic process, completing the assigned work as a team or group effort (with the exception of group projects as assigned by the instructor) is not allowed and will be considered Academic Dishonesty. No Academic Dishonesty will be tolerated and such activity may result in failure of a specific assignment, an entire course, or, if flagrant, dismissal from Grand Valley. For further information see the Student Code, and the consequences include penalties established by GVSU's Academic Integrity policy (https://www.gvsu.edu/conduct/academic-integrity-14.htm).

Plagiarism. Any ideas or material taken from another source for either written or oral presentation must be fully acknowledged. Offering the work of someone else as one's own is plagiarism. The language or ideas taken from another may range from isolated formulas, sentences, or paragraphs to entire articles copied from books, periodicals, speeches, or the writing of other students. The offering of materials assembled or collected by others in the form of projects or collections without acknowledgment is also considered plagiarism. Any student who fails to give credit in written or oral work for the ideas or materials that have been taken from another is guilty of plagiarism. Such activity may result in failure of a specific assignment, an entire course, or, if flagrant, dismissal from Grand Valley. For further information see the Student Code.

Campus Emergencies. In case of fire, immediately proceed to the nearest exit during a fire alarm. Use a staircase, not an elevator. To sign up for campus emergency alerts and to access

more information, please visit the GVSU Emergency website (https://www.gvsu.edu/emergency).

Learning Resources. See the "Help & Support" section of Blackboard for help with using Blackboard; a link to the Blackboard Student Mobile App and Blackboard IM; GVSU computer lab hours and locations; GVSU IT Help Desk (https://www.gvsu.edu/it/helpdesk/); accessibility and Disability Support Resources (https://www.gvsu.edu/dsr/).

Changes to the Syllabus. The instructor reserves the right to change the contents of this syllabus. Students will be given notice of relevant changes in class, through a Blackboard announcement, or through GVSU e-mail.

Psych Friends. If you feel you could use some extra help/guidance/support in any academic domain or for your well-being, please consider scheduling an appointment with a mentor through Psych Friends. Psych Friends mentors are upper-level undergraduate peer mentors who are trained to provide support in many areas including: effective study and time management techniques, exam preparation and reflection skills, comprehension of the psychology and behavioral neuroscience major requirements, tips for engaging in the field, strategies for education continuation, methods for maintaining physical and mental health. Schedule an appointment here: https://www.gvsu.edu/navigate. Questions? Email psychfriends@gvsu.edu.

This course is subject to the GVSU policies listed at http://www.gvsu.edu/coursepolicies/
