Course Requirements

Midterm and Final Examination (100 pts. each):

A midterm and final examination are required for this course. These exams will consist of approximately 50 questions that will assess your knowledge of content across the entire term. The midterm is scheduled for October 10. ***The final exam date is April 24 at 4:00 PM.***

The final exam will focus on interventions and education of students and adults with intellectual disabilities. Questions from group presentations will be on the exam. Therefore, it is extremely important that you attend each group presentation and take notes to assist your performance on the final exam.

Exam Policies: Make-up exams are only allowed in the case of an unavoidable emergency. An unavoidable emergency may include the following: serious illness, funeral, or unexpected car trouble. In order to make up an exam you **MUST** have documentation. Documentation can include: doctors note, towing or car repair receipt, program from funeral, etc. You must provide this documentation within 24 hours of the missed exam. Please note that make-up exams must be completed within 1-week of the scheduled exam date. **Failure to notify me in advance, provide documentation, or complete the exam within the time frame, will result in a zero on the exam.**

During exams, you will be required to turn off all digital devices, such as cell phones, pagers, MP3 players, iPods and hand-held computers. Any student identified with such a device powered on during an exam will receive an F on the test at the instructor's discretion.

Choice Assignment (20 points):

You will get to choose which assignment to complete for this assignment. Whatever you choose, your paper should be 1-2 pages long. The choices are:

- ***Interview:***

For this option, you will interview either an adult with an intellectual disability, a family member of someone with an intellectual disability, or a special education teacher. More information will be available in class.

- ***Disabilities in Media:***

Understandably, it may be difficult to find someone to interview for this assignment. If so, the other option is the Disabilities in Media paper. For this assignment, you will be asked to watch a movie or TV show episodes that feature a character with a developmental disability. Based on what we have learned in class readings and discussions, you will write a 1-2 page paper on if the character's disability was accurately portrayed. More detailed information on what is expected will be provided.

Controversial Issues (30 points)

For this assignment, you will select a controversial issue in the field of intellectual and developmental disabilities to research and describe your opinion on the issue. The purpose of this assignment is to: (1) have you think about the pros and cons of a controversial issue in the field of intellectual disabilities, (2) have you reflect on your own biases and how these biases might affect your opinion on the issue, and (3) help you reflect on the quality of information available on this topic. More information will be given in class.

Group Project (50 points):

You will be paired in groups of three to four people to complete this project and come up with a presentation. The purpose of this project is to research the efficacy of an intervention for strategy that relevant to children or adults with disabilities. Make it relevant to the field in which you would like to pursue a career in. You will be required to: read and summarize empirical research, synthesize information, and prepare a power point and handout for practitioners. Although you may choose your own topic, I will provide a list of suggested topics. Any topic that is not on the list must be approved by me.

Group Project Peer Review (10 points):

Your intervention group will complete a rating form on each group member's participation. Please keep in mind while working in the group that you will be rated on the following areas: Attendance, contributions, preparation and cooperation.

Application Assignments (25 points):

During the semester, I will assign small assignments during class. Typically, assignments will be worth about 5 points. These assignments may include: in-class group activities, article responses, or case studies. The assignments will be announced in-class. Late assignments will not be accepted under any circumstances. If you miss an in-class activity, you will not be able to make it up (even if the absence is excused). In addition, because assignments will typically be given out in class, and may not be posted on blackboard, it is your responsibility to talk to classmates to determine if an assignment was given. Extra credit opportunity! There will be more assignments than the 25 points possible. If you attend all classes and participate, you are likely to get extra credit.

Course Policies

Attendance: Lecture attendance is essential for earning a satisfactory grade in this class.

Attendance will not be taken during lectures. If you do need to miss a class period, please be aware of the following: (1) I will not go over the lecture with you or help you complete the lecture notes (you must consult with a peer in this class), (2) I present a significant amount of content that is not in the textbook and this content is often on the exams, and (3) I often provide time in-class to work on your group project. Group members often get frustrated with individuals who are not in class to assist.

Lecture note: Typically, I will post my lecture notes on blackboard prior to lecture. These notes typically outline the lecture, and do not contain all important information. Therefore, it is recommended that you take notes during lecture, as you will be held accountable for the lecture

content, including information that is not posted on the slides. Although I will make every effort to post slides prior to lecture, it is not guaranteed. It is likely that there will be days that slides are not posted prior to class. Please do not email me and ask when the slides will be posted. In addition, some slides may be changed/added after I post.

Preparation for lecture: I expect that all students will be fully prepared for lecture. This is defined as reading the assigned text *prior* to the lecture and identifying any questions for clarification. I often plan small group activities/discussions for during lecture, and it is essential that you are prepared to fully participate/benefit from these activities.

Electronic Devices: All electronic devices (cell phones, i-pods, etc.) are to be **turned off** and **put away** during lecture. There will be exceptions. For example, if conducting polls, I may ask you to use your phones or laptop computers to answer. Please refrain from text messaging, emailing, surfing the web, etc. during lecture. This is very disruptive to other students. Laptop computers are permitted for taking course notes only. If it becomes apparent during the term that laptops are being used for other purposes (emailing, instant messaging, surfing the web, etc.) I reserve the right to institute a “no laptop policy.”

Canceled Classes: If classes are canceled at the university, any exam or assignment missed due to the cancellation will take place at the next scheduled class meeting time. If I cancel a class, I will notify the class via email.

Assignment Submissions:

Assignments are due at the start of class on the due date. Assignments should be turned in electronically via Blackboard. Assignments turned in after the start of class will be considered late. Late assignments will be accepted up to 3 days beyond the due date with a 25% deduction in points (i.e., if the deadline is Tuesday, work will be accepted through Friday). Late assignments should also be submitted via Blackboard.

University Policies

Academic Integrity: Students are expected to adhere to the university’s policies on Academic Honesty. These policies are described in the catalog and in the Student Code. Cheating and plagiarism will be dealt with as per the procedures described in the Student Code.

Plagiarism: As described in Section 223.01 of the Student Code, “any ideas or material taken from another source for either written or oral presentation must be fully acknowledged. Offering the work of someone else as one's own is plagiarism. The language or ideas taken from another may range from isolated formulas, sentences, or paragraphs to entire articles copied from books, periodicals, speeches or the writings of other students ... Any student who fails to give credit in written or oral work for the ideas or materials that have been taken from another is guilty of plagiarism.” In sum, copying the work of any other individual, whether that of another student, researcher, author or editor is considered plagiarism. This is not acceptable and will be dealt with according to the policies set forth in the Student Code, which may include receiving a 0 on the assignment, failing the course, and/or other university consequences. If you have questions regarding the appropriate use of citations and plagiarism, please contact the instructor BEFORE turning the assignment in. Please note that taking extensive content word-for-word from a journal, book or website is considered plagiarism.

Fire Procedures:

Immediately proceed to the nearest exit during a fire alarm. Do not use elevators. More information is available on the University’s Emergency website located at <http://www.gvsu.edu/emergency>.

Commitment to Inclusion & Equity & University Anti-Harassment/Non-Discrimination

As adopted by the Board of Trustees, in Administrative Manual Chapter 1, Grand Valley State University is committed to inclusion and equity, and strives to establish a climate that welcomes and affirms the contributions of all students and employees. The University is guided by values for inclusiveness and community, which are integral to our mission to educate students to shape their lives, their professions, and their societies, and to enrich the community through excellent teaching, active scholarship, and public service. The University strives to provide all members of its community an inclusive environment and equitable opportunities for success.

The University is also committed to maintaining a climate conducive to an educational, living, and employment environment that is free from unlawful acts of harassment and discrimination, as well as those defined by this policy. All members of the community are expected to conduct themselves in a manner that does not infringe upon the rights of others. It is neither the purpose nor intent of this policy to infringe on the First Amendment or academic freedom as defined by the University.

The University is an affirmative action, equal opportunity institution, consistent with its obligations as a federal contractor. It encourages diversity and provides equal opportunity in education, employment, all of its programs, and the use of its facilities. It is committed to protecting the constitutional and statutory civil rights of persons connected with the University.

Members of the University community, including students, employees, faculty, staff, administrators, Board members, consultants, vendors, others engaged to do business with the University, candidates for employment or admissions, and visitors or guests have the right to be free from acts of harassment and discrimination, including sexual misconduct, as defined by this policy. In accordance with applicable federal and state law and this policy, acts of discrimination or harassment by members of the campus community are prohibited if they discriminate or harass on the basis of age, color, disability, familial status, height, marital status, national origin, political affiliation, race, religion, sex/gender (including gender identity and expression), sexual orientation, veteran or active duty military status or weight. This includes inappropriate limitation of, access to, or participation in educational, employment, athletic, social, cultural, or other university programs and activities. The University will provide reasonable accommodations to qualified individuals with disabilities. Limitations are lawful if they are: directly related to a legitimate university purpose, required by law, or lawfully required by a grant or contract between the university and the state or federal government. For the purposes of this policy, sex-/gender-based harassment includes sexual misconduct, sexual assault, interpersonal or relationship violence, and stalking.

Creating an Equitable and Inclusive Learning Environment

As an instructor, I will strive to create an equitable and inclusive learning environment in our class. It is my and the university's goal that you feel able to share information about your experiences as a student. University faculty and staff will seek to keep information you share private to the greatest extent possible. There is some information that may need to be shared with the university, especially regarding sexual misconduct or information about a crime that may have occurred on GVSU's campus. Below are additional resources available for support:

- **Title IX, Sexual Misconduct Policy, and Gender- and Sexual-Based Harassment Policy:** Title IX makes it clear that violence and harassment based on sex and gender are Civil Rights offenses subject to the same kinds of accountability and the same kinds of support applied to offenses against other protected categories such as race, national origin, etc. Title IX's sex discrimination prohibition also protects students from discrimination based on gender identity or failure to conform to stereotypical notions of masculinity or femininity. If you or someone you know has been harassed, assaulted, or denied services on the basis of sex or

gender, you can find the appropriate resources at www.gvsu.edu/titleix or contact the University's Title IX Coordinator, Theresa Rowland at 616-331-9530 or rowlanth@gvsu.edu.

- **Disabilities Support Resources:** If you have special needs because of a learning, physical or other disability, please contact the instructor as well as Disability Support Resources (DSR) at 616-331-2490 for assistance as soon as possible. Even if you have already documented your disability with DSR, please make an appointment with your faculty member to discuss your specific needs. Furthermore, if you have a disability and think you will need assistance evacuating the classroom and/or building in an emergency during in-person meetings, please make your instructor aware so that the university can develop a plan to assist you. You may also access resources at <http://www.gvsu.edu/dsr>. The university is eager to work with you to meet your learning goals. All discussions related to disabilities will remain confidential.
- **Gender Expression and Identity:** Students whose preferred names do not match their state issued identification may have their preferred name on their GVSU ID card, the name associated with their student email account and in Blackboard, an online learning tool for discussions and class group collaborations. Students must make these requests by contacting Bill Widmaier (widmaieb@gvsu.edu) in the Registrar's Office. He will take your request and contact the Blackboard administrator to make the change. He also contacts professors to inform them that your name in Banner will not match the name in Blackboard. More information is available at <http://www.gvsu.edu/lgbtrc/name-gender-markers-130.htm>.
- **Bias Incidents or Harassment:** Anytime you or anyone in the GVSU community feels belittled, disrespected, threatened, or unsafe because of who you are, the entire university community is diminished. That's why it's important to report all bias incidents--even those intended as jokes. While Grand Valley safeguards individuals' constitutional rights and protected speech, the university is also committed to inclusion and equity. Grand Valley exercises the right to engage in educational dialogue and seeks constructive responses to address bias incidents. Go to <http://www.gvsu.edu/inclusion/bias-incidents.htm> to report bias incidents or for more information. In addition, for faculty/staff related complaints, you can file an informal complaint with the Division of Inclusion and Equity at inclusion@gvsu.edu or 616-331-3296. For student related complaints, you can also contact the Dean of Students office at 616-331-3585.
- **Student Well-Being:** As a student, you may experience a range of issues that can negatively impact your learning, such as anxiety, depression, interpersonal or sexual violence, difficulty eating or sleeping, loss/grief, and/or alcohol/drug problems. These mental health concerns or stressful events may lead to diminished academic performance and affect your ability to participate in day-to-day activities. In order to support you during such challenging times, GVSU provides a number of confidential resources to all enrolled students, including the University Counseling Center (<http://www.gvsu.edu/counsel/> or 616-331-3266) and the Student Ombuds, Takeelia Garrett (garrett@gvsu.edu).
