Prerequisite: An introductory psychology course (Psych 101 or the equivalent), or HNR 234.

## COURSE STRUCTURE

This course provides an overview of physical, cognitive, emotional, and social development across the human lifespan. We begin with an introduction to the study of human development then proceed to cover the developmental periods of prenatal development, infancy, early childhood, middle childhood, adolescence, adulthood and late adulthood. Classes will consist of lectures, multimedia presentations, and in-class assignments. Questions and comments are encouraged!

## COURSE OBJECTIVES

1. To describe the developing person from birth through late adulthood.
2. To provide perspective on the changes that take place during an individual's life.
3. To describe methods and techniques for observing and measuring human development.
4. To appreciate how different theoretical perspectives affect or determine the research and applications that arise from them.

## COURSE REQUIERMENTS

**Three Exams** (100 points each, 300 points total): Three exams will be given covering material presented in the lectures and text. Be advised that you are responsible for material that will be presented **ONLY** in class and **ONLY** in the text. Lecture material will make up approximately 85% of each exam and textbook material make up approximately 15% of each exam. Exams will consist of objective questions in multiple choice format.

**Make up exams:** Occasionally there are legitimate reasons for missing an exam. I will, however, allow you to take a make-up exam ONLY if you inform me 48 hours in advance that you will have to miss the exam. If you become extremely sick or encounter some other emergency on the day of the exam, I must be notified by email within 12 hours of the scheduled exam time and you will need to show some verification (e.g., a note from your physician, an accident report, etc.). **Missed exams or failure to comply with these policies will result in a zero on the exam.**

**Six In-class Assignments** (5 points each, 25 points total): You will have the opportunity to complete 6 in-class assignments throughout the semester, each worth 10 points. Your score from your lowest in-class assignments will be dropped from your final grade. You will not be given advanced notice regarding the date or time of in-class assignments. You must be in class and turn in your assignment to receive credit. **Make-up opportunities for in-class assignments will not be granted regardless of reason for missing the assignment.**

**Three Homework** (10 points each, 15 points total): You will have the opportunity to complete 3 homework assignments throughout the semester, each worth 10 points. These assignments will require you to apply principles that we have covered in class. You will be given the details of the assignment and will write a brief paper for each homework assignment. Homework assignments will be submitted through BlackBoard, by midnight of the date due. More information about these assignments will be provided later in the semester.

**Late Homework:** If a homework deadline is missed due to illness or some other emergency, I must be notified by email within 12 hours of the scheduled due date and you will need to show some verification (e.g., a note from your physician, an accident report, etc.). **Assignments that are not turned in, or are turned in late and fail to meet these regulations will result in a zero.**

**Grading:** Grades are based on points earned in the class. The total number of points possible for the class is 355. Grades will not be curved. Your final grade will consist of your three exam scores, your scores from your best 5 in-class assignments (out of 6), and your scores on the three Homework Assignments.

#### **Grading Scale:**

<u>Your Total Points</u>	<u>Letter Grade</u>	<u>Your Total Points</u>	<u>Letter Grade</u>
333-355	A	272-283	C+
320-332	A-	259-271	C
309-319	B+	247-258	C-
294-308	B	238-246	D+
284-293	B-	213-237	D
		212 and below	F

**\*\*If your grade is at the .5 mark, I will round up (i.e., 262.5 will be rounded up to 263).** I will not adjust your grade in any other way. Please do not ask at the end of the semester.

#### **COURSE POLICIES**

**In-Class Behavior:** It is very important to minimize disruptions and to show respect and consideration for other students as well as the academic process. For this reason, please get to class on time, and once the lecture starts, please refrain from texting, reading, or sleeping. When you come to class, please be prepared to actively listen and take notes. If you need to leave class early, please sit near an exit and leave quietly.

**Accommodation of Learning Disabilities/Special Needs:** Disability: If you have a learning, physical or other disability that would impact your ability to master the material in this course and/or take the exams as described above, please contact GVSU's **Disability Support Resources (DSR)** at 616-331-2490 or <http://www.gvsu.edu/dsr/> to arrange for special accommodations. Furthermore, if you have a physical disability and think you will need assistance evacuating this classroom and/or building in an emergency situation, please make me aware so we can develop a plan to assist you.

**Withdrawal:** In accordance with University regulations, students withdrawing by the fourth week (July 28<sup>th</sup>) will be assigned a grade of W (withdrawal). Students withdrawing after the deadline to withdraw will be assigned a letter grade based on their performance in the class (total points earned/340 points). **Note: It is your responsibility to drop yourself from this class.**

**Incomplete:** Under special circumstances, a grade of Incomplete (I) can be granted. See me as soon as possible to arrange this, and provide me with written documentation of why the course could not be completed. Note that an Incomplete grade must be completed by the end of the next academic semester, or is automatically converted to an F. An Incomplete will not be given for falling behind in the course or wanting to repeat the course for a better grade.

**Integrity of Scholarship and Grades:** All academic work will be done by the student to whom it was assigned. Anyone caught cheating (e.g., procuring, providing or accepting any materials which contain questions or answers to any exam or assignment, submitting work that has been previously graded) or plagiarizing (taking ideas or material from another source for either written or oral presentation without acknowledging the original source) will be dropped from the course, given an F, and referred to the University for further action. Cheating is a serious violation of academic integrity. For more information on academic honesty please see the GVSU student code.

**• HOW TO SUCCEED IN PSYCH 364:**

- **Read!** At a *minimum*, you should read the textbook page numbers associated with each lecture *before* the lecture is given. This will provide you with a broader context for understanding the material presented in class.
- **Attend Each Class!** Missing class will substantially lower your grade in the course.
- **Take Good Notes:** Fill-out your Lecture Outline, take additional notes and make note of examples given in class. The Lecture Outlines are intended as a guide only. *Filled-in Lecture Outlines alone will not provide you with all the necessary material to succeed in this course. Additional lecture notes will be essential when you study for the exams.*
- **Prepare for Exams** well in advance. You should re-read your lecture notes each day after class and review material often. If you wait until the last minute to begin preparing for an exam, you are unlikely to perform as well.
- **Come to Office Hours** (or make an appointment to meet with me) if you need to discuss anything pertaining to this course.
