PSYCHOLOGY 364 – 06 LIFE-SPAN DEVELOPMENTAL PSYCHOLOGY

WINTER 2018 TTH 11:30-12:45PM ASH 2119

Instructor: Jing Chen, Ph.D. Phone: 331-2867 (office)
Office: ASH 2203 331-2195 (Psychology Department)
E-mail: chenj@gvsu.edu

Office hours: Tuesdays & Thursdays 2:30-3:45pm or by appointment.

Textbook: Sigelman, C. K., & Rider, E. A. (2012). Life-Span Human Development. 8th ed. Wadsworth, Centage Learning.

Blackboard Website: http://mybb.gvsu.edu

I will use the Blackboard to post announcements, chapter outlines, discussion questions, assignments, links to reserved readings and relevant websites, and exam scores.

Course Description:

This survey course will focus on the normal physical, cognitive, psycho/social development of humans throughout their life spans. Major theories and important research findings on various aspects of human development will be discussed. The strengths and weaknesses of these developmental theories will also be critically evaluated.

Prerequisite: Psychology 101.

Course Objectives:

This course will help you develop an appreciation for the necessity, strengths, and weaknesses of a variety of theoretical perspectives on human development, understand the importance of scientific psychological approach to the conceptualization and understanding of the developing mind, and become familiar with research findings that depict the basic trends in physical, cognitive, and psychosocial development.

Course Outcome Measures:

Your final grade will be based on the total number of points that you accrue on two mid-term exams, a final exam, quizzes & discussions, and one paper assignment.

Exams: There will be two mid-term exams and a final exam. The exams will consist of multiple-choice questions and short answer questions drawn from lectures, readings, assignments, and in-class activities. The exams are designed to assess your understanding of the material, rather than superficial memorization. To answer examination questions correctly, you will have to understand the material well enough to apply it to new problems.

Quizzes, Discussions, & Assignments: Quizzes and discussions will be scheduled during regular class time throughout the semester. Some assignments related to the readings may require you to complete at home. All of the quizzes, discussions, assignments will be graded. The lowest score will be dropped. The quizzes and homework assignments will cover assigned readings to prepare you for the lectures and help you keep up with the pace of this course. The in-class discussions will provide you with opportunities to express your ideas clearly in front of others. Any late homework will be marked down 50% (no late work will be accepted one week after its due date). I will NOT accept anything that is sent through an email attachment.

Course project/Paper: This project will allow you to investigate how well developmental research studies in a specific area are communicated to the general public by the media. Your critical evaluation of the media article needs to be clearly articulated in your paper after a thorough examination of the original research. Specific instructions and due date will be posted on the BB. A late paper will be marked down by 50%. No email attachment of the paper will be accepted.

Grading Scale

	Points	Percentage
Exam #1	100	20%
Exam #2	100	20%
Final Exam	120	24%
Paper Project	80	16%
Quizzes/Discussions	100	20%
	500	100%

Final Grade:	
A	465-500
A-	450-464
B+	434-449
B	415-433
B-	400-414
C+	384-399
C	365-383
C-	350-364
D+	334-349
D	300-333
F	<300

Make-up exams:

Make-up exams will not be given unless there is a family emergency or a severe personal health problem. In such cases, please notify me by phone or email as soon as you can. You also need to provide me with proper documentation (e.g., a doctor's note) before I arrange the make-up exam for you. Things such as attending a wedding or having a plane ticket booked on the exam day do not count as family emergencies. Make-up exams will be given in a different format (e.g., 6 – 9 essay questions covering the same amount of material as the regular exam does). No exams will be given prior to the scheduled date.

Class Attendance:

You are expected to attend all classes even though attendance will not be taken. You are responsible for all materials presented in class. Attending lectures, participating in-group discussions, and reading assigned material before and after class are crucial to getting a good grade and actually learning something from this class. If you are unable to attend class, make sure to find out what has been covered in class.

Class Courtesy:

A respectful and friendly atmosphere in the classroom is important for all of us. Without it, it would be difficult for each of us to freely express our ideas and to feel comfortable to learn and to teach. Let's work together to create an environment that truly nurtures learning.

Computers are not allowed to be used in class unless there is a medical condition that prevents you from taking notes by hand.

Your cell phone needs to be stored completely out of sight during the entire class period.

Emails:

The best way to communicate with me is through email. Please put PSY364 and your name in the subject line.

Withdraws:

The last day you can withdraw from this class with a "W" is March 9th at 5pm.

Office Hours:

You are strongly encouraged to drop by my office during my office hours if you have any questions, confusions, concerns, or suggestions about this course. If your schedule conflicts with my regular office hours, please let me know and I will schedule an alternative time to meet with you. If you need special assistance, please come to see me at the beginning of the semester.

Academic Honesty:

Violations of the standards of Academic Honesty will be met with severe penalties. In addition to referral to the appropriate university committee, anyone known to be plagiarizing material or copying from another person's exam will receive a grade of zero on that assignment or exam. All of the assignments should be done individually unless I announce it otherwise. If I found two identical pieces of work, both of you will not receive credits for that assignment.

COURSE SCHEDULE & READING ASSIGNMENTS*:

	Date	Topic	Readings
Week 1	1/9, 1/11	Basic Issues	Ch. 1 Reserve #1
Week 2	1/16, 1/18	Research Methods	Ch. 1
Week 3	1/23, 1/25	Developmental Theories	Ch. 2 Reserve #2
Week 4	1/30, 2/1	Prenatal Development and Birth	Ch. 4
Week 5	2/6 2/8	**2/6 - Exam 1** Brain Development Across the Life Span	 Ch. 5 Reserve #3
Week 6	2/13 2/15	Brain Development Across the Life Span Physical & Perceptual Development	Ch. 5 Reserve #4 Ch. 5 Reserve #5
Week 7	2/20, 2/22	Physical & Perceptual Development	Ch. 5 & Ch. 6
Week 8	2/27, 3/1	Cognition	Ch. 7 Reserve #6
Week 9	    Spring Break    		
Week 10	3/13, 3/15	Cognition	Ch. 7
Week 11	3/20 3/22	**3/20 – Exam 2** Memory and Information Processing	 Ch. 8 Reserve #7
Week 12	3/27 3/29	Memory and Information Processing Language Development	Ch. 8 Reserve #8 Ch. 10 Reserve #9
Week 13	4/3 4/5	Language Development Gender Development	Ch. 10 Ch. 12 Reserve #10
Week 14	4/10 4/12	Gender Development Attachment and Social Relationships	Ch. 12 Ch. 14 Reserve #11, 12, 13
Week 15	4/17, 4/19	Death and Dying	Ch. 17 Reserve #14

Final Exam: Wednesday, April 25, 2018, 12-1:50pm.

*This schedule is tentative and subject to change. However, we will try to follow it as closely as possible.
