

PSY 101 Introductory Psychology - Fall 2025  
Section 80 2:30 – 3:45 Lake Michigan Hall (LMH) 114

**Instructor:** Luke Galen, Ph.D.

**Office:** 2220 ASH

**Office Hours:** Tues/ Thurs: 10:00 – 11:00 a.m.; 1:00 – 2:00 p.m. or via zoom: email to schedule virtual appt.

**Phone:** 331-2904

**Email:** galenl@gvsu.edu

**Course Description:** General survey of psychology, the scientific study of behavior and experience, including overt actions and mental activity. Covers how psychologists think and act as scientists and how the study of its subject matter may be integrated at the biological, psychological, and social levels of analysis.

**Course Objectives:** This course will emphasize the major theories of behavior and mental processes, the empirical methods used by psychologists, and the major findings of psychological research. Upon successful completion, students will: 1) demonstrate an understanding of the science of Psychology. 2) be able to identify major psychological theories and use psychological terminology correctly. This includes a basic understanding of the breadth of topics studied by psychologists (such as neuroscience, personality, social behavior, and psychological disorders, etc). 3) be able to critically evaluate the findings of psychological research. This includes an ability to think critically about psychological phenomena, and an awareness of how empirically-validated psychological principles apply to daily life (see Gen Ed below); 4) be able to recognize examples of how psychological concepts are applied to daily life; 5) recognize ethical issues and develop ethical reasoning (see Gen Ed below).

**Text (required):**

Option 1: GVSU Save textbook program. See link on Blackboard <https://lakerstore.gvsu.edu/SiteText?id=89186>

Option 2: buy your own text:

Lilienfeld, S. O., Lynn, S. J., & Namy, L. L. (2022). Psychology: From Inquiry to Understanding. (5th ed.).

Hoboken NJ: Pearson. ISBN-13: 9780135441213

Used 4th ed copies of the textbook don't buy a used access code. Only newly purchased codes will work.

I will post the syllabus, grades, pptx slides, class announcements, and other course information at our class homepage on Blackboard, available at <http://mybb.gvsu.edu/>

**Class Format:** In-person lecture, discussion

**Prerequisites:** None

**Grading:** Grades will be based on 2 in-class exams, quizzes, and enrichment activities. The 2 exams will consist of multiple choice and short answer questions drawn from lecture and the book. The final exam is **non-cumulative**.

	<u>Points</u>	<u>Percentage</u>
Midterm	62	31%
In class quizzes and assignments		
5 pts each x 12 (drop the lowest 2)	50	25%
Final	62	31%
Enrichment Activities 4 pts each x 4	16	8%
Gen Ed tutorials 5 pts each x 2	10	5%
Total	200 points	100%

**Expectations for course:** The most important factor for your success is regular class attendance. Students that regularly attend and who are “present” in class – attentive, taking notes, thinking about the material – are much more likely to succeed. Students should also check in daily to course Blackboard, read the assigned readings in textbook, and complete their PSY 101 enrichment activities. Students are expected to read the assigned readings prior to the scheduled class coverage. Exams and quizzes will contain a mixture of content from text and from class-only (i.e., not in the text). In total, expect to spend 6 – 9 hours per week preparing for and attending class.

**Assignments and Quizzes:** There will be weekly low stakes (5 pts each) quizzes roughly one per chapter unit. The lowest 2 will not be counted in the final grade. They are specifically designed so that the student keeps up on the weekly reading and class coverage. They are also important practice for the exams. Since the lowest 2 are dropped, no questions asked, **missed quizzes cannot be made up. Do not request make-up quizzes.**

**Attendance and quiz policy:** The only exceptions for missed attendance (and missed quizzes) are those that the university defines as legitimate or emergency situations (illnesses, death in the family, university activities) that can be **appropriately documented**. It is the student’s responsibility to notify the instructor of approved absences. Accommodations are only available for the following reasons: intercollegiate event (e.g., sports travel) or University-sponsored event (e.g., class field trip), observance of religious holidays, military duty, jury duty, or court hearings, birth of child, academic conference, medical appointments, medical conditions (e.g., COVID quarantine, hospitalization), death of a loved one, or funeral services. In accordance with university policy (<http://www.gvsu.edu/coursepolicies/>) these require documentation. Examples of absences NOT eligible for accommodations are: vacation travel, leaving campus early/arriving back late for long weekends, forgetting or mixing up deadlines, incomplete / inaccessible submission of work, work schedule conflicts, childcare, incarceration.

Do not email me after the quiz or test due dates/ deadlines and ask for make up and do overs. It is the students’ responsibility to keep up with Bb announcements and to check in daily for upcoming material with the assumption that there will be a weekly quiz. Together with the previously mentioned “drop two lowest quizzes” policy (see above section), this means that you will not be allowed to make up quizzes after the deadline passes, which would be unfair to other students. The student assumes the responsibility of planning, taking into account that issues could very well appear unexpectedly. Therefore, **DO NOT PROCRASTINATE READING FOR CLASS**. I will respond to all do over requests by simply pasting the above text in the body of the email.

**Academic Dishonesty:** Any evidence of cheating (e.g., using notes during exam, sharing answers with other students), or plagiarism (copying from other sources) will result in a failing grade in the course and any other actions as allowed by GVSU policy. Any written work must be in your own words or properly sourced. Grand Valley State University’s policy on plagiarism (described in the catalog and in the Student Code) is the principle that “[a]ny ideas or material taken from another source... must be fully acknowledged.” This means that all materials must be written strictly in your own words, and it must acknowledge any ideas that you take from another source. If you violate this policy, you may receive a failing grade for the course.

**Disabilities:** If you have a disability, it is up to you to determine if you wish to disclose that information and request classroom accommodations. If you wish to request educational accommodations due to a disability, you should register with the Disability Support Resources (4015 Zumberge; 331-2490), if you haven’t already done so. If you wish to request accommodations, please meet with me to discuss how to best meet your educational needs. Do this early in the semester rather than later (e.g., after a test).

\*\*\*\*\*

## Enrichment Activities: Learning about Psychological Research

\*\*\*\*\*

In the Enrichment Activities (EA) portion of the course, students will be given the opportunity to experience psychological research first-hand. Two kinds of enrichment activities are available:

- *Option 1* involves being a participant in research studies conducted by Psychology Department faculty and students.
- *Option 2* involves completing activities that will introduce you to a variety of research techniques used in psychological research.

Students must earn **four** EA credits for this requirement. The credit you earn by completing each EA is a function of the amount of time it takes to complete it. For example, by participating in a brief online study (30 minutes or fewer) you would earn ½ of an EA credit whereas an EA that takes one hour to complete would earn 1 credit. Both types of Enrichment Activities will be available in face to face and online formats. You may complete the EA requirement using any combination of EA types, however, **at least two full credits of EAs must be completed in person.**

**Enrichment activities are scheduled and offered through the Sona Study Scheduling System.** You will receive an email at the beginning of the semester sometime during the first week of class containing your User ID and an initial password, and a link to the Sona system website at <https://gvsu.sona-systems.com>. If you do not receive an email regarding your account by end of day on Wednesday, September 3<sup>rd</sup>, please check your spam folder. Should the email still not appear, please contact the Lab Manager, Hannah Todd, at [psychlab@gvsu.edu](mailto:psychlab@gvsu.edu).

SONA Systems maintains a strict policy protecting your privacy and confidentiality. This policy is available for review in the Psychology Office. Additional details regarding the enrichment activities and an FAQ are available online at <https://www.gvsu.edu/psychology/psy-101-participation-in-research-sona-435.htm>

**Screening Instrument:** Once you receive your User ID and password, you will be able to immediately earn .5 credits by completing an online prescreening questionnaire. This is a short questionnaire used by some researchers to determine your participation eligibility for studies carried out throughout the semester. You must be 18 or older to complete the prescreen survey. You are not required to complete it, but doing so increases the number of studies you will be able to choose from during the semester. You can complete the prescreen at any time from the My Profile tab on the blue bar at the top of the page, however, completing it early (within the first two weeks of class) ensures that you will have access to the widest variety of EA activities within the Sona System.

### **Enrichment Activity Deadline**

The last day to complete your EA requirement is **Fri. December 5<sup>th</sup> @ 5:00 pm.**

## General Education Program

The General Education Program prepares students for informed citizenship, leading to responsible participation in local, national, and global communities.

Gen ed video intro: <https://www.youtube.com/watch?v=5-lmNAkPeic&feature=youtu.be>

### General Education Foundations – Social and Behavioral Sciences

#### Knowledge Student Learning Outcomes

1. Explain how knowledge in the social and behavioral sciences is created and applied.
2. Explain major approaches, methods, theories, and substantive findings of the field.
3. Evaluate and apply concepts and theories from the social and behavioral sciences to real-life examples.

#### Skills Student Learning Outcomes

1. Critical Thinking: Comprehensively evaluate issues, ideas, artifacts, or events before forming a conclusion.
  - States an issue clearly and describes it comprehensively.
  - Develops a position or interpretation, based on evidence, that thoroughly takes into account the complexities of an issue, idea, artifact, or event, the limits of the position or interpretation, and other points of view.
  - Develops conclusions, implications, and consequences that are logical and reflect an informed evaluation based on strength of evidence.
2. Ethical Reasoning: Apply ethical principles and codes of conduct to decision making.
  - Recognizes ethical issues when presented in a complex, multilayered (gray) context and can recognize interrelationships among the issues.
  - Applies ethical theories to a complex issue accurately and considers the full implications of the application.
  - States a position in-depth and effectively defends against other ethical perspectives

Teaching in the liberal tradition is at the heart of Grand Valley's identity, and this focus is critical in our General Education Program. Liberal education transcends the acquisition of information; it goes beyond the factual to ask important evaluative and philosophical questions. Liberal learning holds the fundamental principles and suppositions of a body of knowledge up to inquiry, question, and discussion. It helps a person recognize the assumptions under which he or she operates and encourages the examination and questioning of those assumptions. Liberal learning begins in the General Education Program and continues through the more specialized studies comprising each student's major and minor areas of study.

**General Education Assessment:** One of the Gen Ed knowledge goals is to “Evaluate and apply concepts and theories from the social and behavioral sciences to **real-life examples**.” The essential skill outcomes involve critical thinking and ethical reasoning. Therefore, in that spirit, two tutorials (one for first half of class, one for second half), will be administered via Blackboard, before midterms and last week of the semester. You will receive 5 course points for each tutorial you complete. Monitor Blackboard and the announcements made in class for information regarding the deadline for this assignment (TBD). Note: This is DIFFERENT from the Course Evaluation, which asks your opinion of various aspects of this course.

**Tentative Class Schedule:** More detailed reading instructions will be posted on Bb.

<u>Week of</u>	<u>Topic</u>	<u>Reading</u>
Wk 1: Aug 26 28	Psychology and Scientific Thinking	Ch. 1 (Lilienfeld).
Wk 2: Sept 2 4	Research Methods	Ch. 2
<b>Friday Sept. 5<sup>th</sup>: Deadline to opt out of GVSU Save online textbook program</b>		
Wk 3: Sep 9 11	Biological Psych.	Ch. 3
Wk 4 Sep 16 18	Developmental psych	Ch. 10 (SKIP: phys dev, adult aging)
	Nature vs. nurture: dev. of morality	Article on baby morality
<b>Sept 19<sup>th</sup> 5:00 p.m. (Friday) deadline for 75% tuition refund.</b>		
Wk 5 Sep 23 25	Learning	Ch. 6
Wk 6 sep 30 Oct 2	Consciousness	Ch. 5
Wk 7 Oct 7	Intelligence	First half of Ch. 9
Oct 9	Emotions I: theories of emotion	Ch. 11.1, 11.2
Wk 8 Oct 14	emotions II: happiness and affective forecasting	Ch. 11.3
<b>Midterm exam: Thurs Oct 16<sup>th</sup></b>		
Wk 9 Fall Break no class Tuesday Oct. 21 <sup>st</sup>		
Oct 23	Emotions III: sexuality and orientation	11.4, 11.5
Wk 10 Oct 28 30	Social psychology I and II	ch. 13
<b>Last day to withdraw (grade of 'W'): Nov 7<sup>th</sup>, 5:00</b>		
Wk 11 Nov 4 6	Social III and IV	ch. 13
Wk 12 Nov 11 13	Personality	ch .14
Wk 13 Nov 18 20	Psychological disorders I and II	ch. 15
Wk 14 Nov 25	Psychological disorders III	ch. 15
<b>Thanksgiving break Thurs Nov 27<sup>th</sup>.</b>		
Wk 15 Dec 2 4	Psychological Treatments	ch 16
Fri. Dec 5 <sup>th</sup>	Last day to participate in studies for enrichment credit	
Fri. Dec 5 <sup>th</sup>	General Education tutorial II due date:	On BB.
<b>Wk 16 Final exams: Section 80 (normally meets at 2:30): Tuesday, December 9, 4:00 pm - 5:50 pm</b>		

\*\*\*\*\*

## Structured Learning Assistance (SLA) Program Expectations

\*\*\*\*\*

**What is SLA? What are SLA workshops?:** Structured Learning Assistance (SLA) is a form of peer-led supplemental instruction that focuses on collaboration, group learning, and interaction to help students succeed in historically difficult courses with high rates of poor grades or withdrawals. SLA workshops provide students with course-specific learning and study strategies like notetaking, test-taking, reading skills, etc. as well as structured review and study time with a group of peers. The goal of the SLA program is to help students build foundational knowledge and skills that will improve their course performance now and in the future.

**What are the benefits of SLA?:** While the data changes every semester, students who enroll in an SLA section of a course and attend workshops regularly, typically gain:

- A greater sense of community and belonging
- Higher test and final course grades
- A deeper understanding of course content
- Positive study habits and reading skills
- A positive relationship with a peer tutor/mentor

**What should I expect from the SLA workshops?:** These are all about active engagement and discussion, so attendance AND participation are important. Students should expect to...

- 1) Bring their textbooks/notes to workshops.
- 2) Participate fully and actively.
- 3) Work with other students and/or individually when asked.
- 4) Work only on PSY101 course material during the workshop.
- 5) Address the Peer Facilitator respectfully.
- 6) Treat classmates respectfully.
- 7) Strive for a positive attitude about your learning.

**Who is the Peer Facilitator for PSY101?:** We are lucky to be working with Joseph Kozlowski this semester! You will see Joseph during our PSY101 lecture sections, and he will be leading the SLA workshop sessions. Joseph and Dr. Galen will be working closely throughout the semester to ensure SLA workshops are informative and interesting, and that student needs are addressed. [Here is a message from Joseph:](#)

"I'm currently a Sophomore majoring in Pre-Medical studies with a minor in Psychology. I've always loved Psychology and continue to be more mesmerized every day I study it, I believe that being a facilitator will provide me room to apply what I learn in my courses straight back to other people to further them in their studies. I'm excited at this new opportunity and hope dearly that it is the first of many I will have in my time here at Grand Valley. Outside of my studies I enjoy fashion, thrifting, designing, photography, music, performance weight lifting, and occasionally I pick up card games to learn so I can play them with my brothers. I want to make this course as enjoyable as it was for me when I took it for the first time so that we may all have a well rounded and pleasant experience!"

You can connect with Joseph before and after lecture and workshops and via email at [kozlowjo@mail.gvsu.edu](mailto:kozlowjo@mail.gvsu.edu)

Here are some things you can expect from Joseph as your SLA Workshop Peer Facilitator...

- 1) Attend all lecture class sessions (a great way to touch base with her if you have questions).

- 2) Prepare weekly workshop sessions that address difficult course content, engage students in active learning activities, and build important learning and study strategies.
- 3) Answer questions about course material.
- 4) Advise students on relevant resources available from GVSU.

But Joseph is NOT a teaching assistant, and IS NOT responsible for...

- 1) Re-lecturing on material covered during the lecture class sessions.
- 2) Teaching lecture class sessions in the professor's absence.
- 3) Answering questions about grades or course requirements (like when certain assignments are due). Instead, consult the syllabus and BB for this, or ask your professor.
- 4) Grading assignment and exams.
- 5) Providing late work/make-up accommodations.

**When do SLA workshops meet?:** Structured Learning Assistance (SLA) workshops meet on Tuesdays 4:00-4:50pm Au Sable Hall (ASH) room 1310, Tuesdays 5:00-5:50pm in ASH 2310, and Fridays 3:00-3:50pm Lake Superior Hall (LSH) room 225 see Schedule for specific dates.

**Do I have to attend the SLA workshop each week?:** The short answer is YES. The longer answer is IT DEPENDS. Below is the detailed attendance policy created by the [Tutoring & Reading Center](#) for SLA workshops. \*Please note that the attendance policy for SLA workshops is SOMEWHAT DIFFERENT from the attendance policy for lecture class sessions.

- All students are **required** to attend weekly SLA workshops until Exam #1 grades are posted.
- After Exam #1 grades are posted, students with a midterm grade of a B or higher (83% or higher) are excused from weekly SLA workshops, although they are encouraged to continue attending. Students will continue to be excused from the workshops if their overall grade in the course remains at or above a B (83% or higher).
- After Exam #1, if a student's overall grade in the course falls below a B (so, below 83%), they will be required to continue attending weekly SLA workshops. Students are strongly encouraged to monitor their grade through the Blackboard Gradebook. It is the student's responsibility to know – or find out - if they are required to continue attending SLA workshops after an assessment has been graded. Students should ask the Professor, or just continue to attend the workshops.
- No more than **2 unexcused absences** from the weekly SLA workshops will be permitted during the semester. Students who exceed their allowable number of unexcused absences will receive an F in their PSY101 course. Please keep in mind that students can withdraw from any course at GVSU (earning a "W", which doesn't negatively impact GPA) until Friday, March 21<sup>st</sup>. Please see the Accommodations section earlier in this syllabus for examples of excused and unexcused absences.
- Attendance for the complete workshop session is required. A student who arrives more than 15 minutes late or leaves more than 5 minutes early will be marked as absent.

**THANK YOU FOR YOUR PARTICIPATION IN THE SLA PROGRAM AND FOR YOUR COMMITMENT TO YOUR EDUCATION!**
