COURSE DESCRIPTION

This course will explore the advanced applications of the theory, principles, concepts, and practices of applied behavior analysis (ABA), and their application to educational and clinical settings. Students will also learn to use supervision and management practices based on behavior principles.

Objectives

Upon successful completion of this course, students will be able to

1. Describe concepts and principles that underlie research and practice in behavior analysis
2. Use behavior analytic principles and strategies in educational and clinical settings
3. Demonstrate the ability to supervise and train others to implement behavior analytic programs
4. Explain the theoretical underpinnings and key concepts of verbal behavior
5. Illustrate the use of verbal behavior in professional practice
6. Demonstrate ethical and professional principles as they relate to supervision

COURSE INFORMATION

Blackboard is the Course Management System

To access Blackboard, go to <https://lms.gvsu.edu/> and enter your login and password.

Take a look at the GVSU Online Learning pages to find numerous materials about using Blackboard and online learning <http://www.gvsu.edu/online/>.

If you experience technical problems, check the help website <http://www.gvsu.edu/it/learn/>. If you need further assistance, contact the help desk by email or phone - helpdesk@gvsu.edu or 616-331-3513.

Accessing the Library

Many of GVSU's library resources can be accessed online [Distance and Off-Campus Learning Services](#) with many journal articles available on demand. You must have an active GVSU student account to take advantage of the library's resources and services. General library [help site](#).

Graduate Writing Resources

The [Graduate Writing Resources](#) are available to assist with all kinds of writing tasks and they will give feedback on writing assignments. It is not just for students who struggle with writing. They can help any student improve writing skills.

Accommodations for Students with Disabilities

If you are in need of accommodations due to a learning, physical, or other disability you must present a memo to me from Disability Support Resources (DSR), indicating the existence of a disability and the suggested reasonable accommodations. If you have not already done so, please contact the [Disability Support Resources](#) office (4015 JHZ) by calling 331-2490 or email to dsrgvsu@gvsu.edu. Please note that I cannot provide accommodations based upon disability until I have received a copy of the DSR issued memo. All discussions will remain confidential.

COURSE ORGANIZATION and ASSIGNMENTS

Synchronous Meeting (participate in 1 synchronous meeting)

The synchronous meeting will provide an opportunity to talk about course materials and assignments as a group. You will be asked to have your video on during the meetings and participate with the group.

Readings (weekly)

You will have book chapters and articles to read weekly. It is critical to stay up on the readings since this is where you will learn much of the content that will be used for discussion board and assignments. It is also necessary for the BCBA exam, and important for your work as a practitioner.

Unit Content (two-week units)

The units will be a foundational part of the course, and this is where you will find instructions for each two-week segment of the course including reading assignments, course content presentations, and assignments. Units will open up two weeks at a time with assignments due at the end of the two-week period. All previous units will be open throughout the course.

Discussions – (each Learning Unit)

Discussion board will be posted with each unit to promote discussion related to the topics covered in the unit. It is important to have interactions with others related to the topics in each unit. A grading rubric is provided on the Blackboard site under Course Basics.

Assignments – (each Learning Unit)

You will have an assignment associated with each learning unit. These will vary in type and length but most will involve practice or application of concepts from the unit content. These are graded and will constitute an

important part of your learning and grade for the course. All written assignments must be prepared in a professional manner (typed, and free from spelling/grammatical errors). More information about each of these assignments will be provided on Blackboard.

Unit reading quizzes – (6 quizzes)

Each unit will have a brief reading quiz at the end of the second week to check for understanding of the reading material and strengthen the preparation for discussions.

ACADEMIC INTEGRITY

[GVSU Student Code regarding Integrity of Scholarship and Grades:](#)

Section 223.00: Integrity of Scholarships and Grades

Truth and Honesty. The principles of truth and honesty are recognized as fundamental to a community of teachers and scholars. The University expects that both faculty and students will honor these principles, and in so doing protect the validity of University grades. This means that all academic work will be done by the student to whom it is assigned without unauthorized aid of any kind. Instructors, for their part, will exercise care in the planning and supervision of academic work, so that honest effort will be positively encouraged.

Section 223.01: Plagiarism

Any ideas or material taken from another source for either written or oral presentation must be fully acknowledged. Offering the work of someone else as one's own is plagiarism. The language or ideas taken from another may range from isolated formulas, sentences, or paragraphs to entire articles copied from books, periodicals, speeches or the writings of other students. The offering of materials assembled or collected by others in the form of projects or collections without acknowledgment also is considered plagiarism. Any student who fails to give credit in written or oral work for the ideas or materials that have been taken from another is guilty of plagiarism.

"This course is subject to GVSU's general requirements for courses. A full list with pointers to resources may be found at www.gvsu.edu/coursepolicies."

Use of Artificial Intelligence (AI) Policy

Many faculty and students are exploring the ways that ChatGPT and other AI resources can facilitate their learning and communication. You may explore these options for this course, including the possibility of meeting with the Writing Center to learn more about best practices for leveraging AI in the development of your original work products. If you utilize ChatGPT for an assignment that you submit in this class, please follow [guidance from the American Psychological Association](#) for explaining the role of AI and citing any specific information from AI sources.

Attendance Policy

In the event of an unavoidable absence from a synchronous meeting or exam window (e.g., illness, family emergency, weather-related disruption), students will have the opportunity to complete an alternative activity or to reschedule the exam as soon as possible, ideally within 48 hours.

Makeup/Late Work Policy

With exceptions for personal illness or emergencies, students will not have the opportunity to make up points lost due to late or missing discussion posts, assignments, or practice quizzes. Please notify your instructor if you are aware of circumstances that could affect your timely completion of assigned work in this course.

Religious Observances

If you need to miss a class to observe a religious holiday, please contact your instructor at least a week in advance to discuss arrangements.

Student Support

GVSU and your instructors are dedicated to helping you meet your academic and career goals. Please do not hesitate to contact your instructors if you wish to discuss your course performance or other academic issues. Additionally, if you would like to talk to a professional counselor about mental health concerns, phone the GVSU Counseling Center during normal business hours at 616-331-3266. If you are experiencing a crisis, you can call 1-800-273-TALK at any time.
