

Faculty Biography

Babasola Fateye

Teaching Disciplines:

Pharmacology, Toxicology, and Physiology

Teaching Philosophy:

"...reality can either be focused or obscured by a lens but it remains true that the lens is the only way to understand reality" (*Proctor*). Whether a lens focuses or obscures reality is a function of experience and practice. As a teacher, my classes provide experiences and practice.

Research Interests:

- Basic and Applied Pharmacology
- Environmental toxicology

Link to Research Publications:

<https://pubmed.ncbi.nlm.nih.gov/?term=fateye>

Professional Activities:

Registered pharmacist

Grants:

Michigan Space Grant Consortium 2017-2018

Personal Interests

Science outreach, running, hiking, ... recently identifying wild mushrooms!

Fun Fact:

I collect stamps!
