

Faculty Biography

Dan Bergman

Teaching Disciplines:

Physiology, Neuroscience, Pathophysiology, and Nutrition

Teaching Philosophy:

Helping students in any way that I can directs and focuses my teaching, scholarship and service efforts. I strive to create transformative courses in the very diverse field of biomedical science.

Research Interests:

Neuroscience and Neurobiology, Toxicology and Environmental Health, and Neuropharmacology

Link to a research publication:

<https://www.tandfonline.com/doi/abs/10.1080/10236244.2020.1810574>

Professional Activities:

Chair of the Biomedical Sciences Department

Grants and Awards:

- Outstanding Faculty Mentor Award for Excellence in Service to the Community and Profession, 2017
- NSF REU Site: Research Experience for Undergraduates in Quantitative Environmental Science and Technology (REU-QUEST), Mentor, 2014-17

Personal Interests:

I enjoy running, golf, softball, spending time with my family, walking our dogs, attending my son's soccer matches, reading, and following Chicago sports teams.

Fun Fact:

My father was one of 18 kids in his family, so I have a lot of cousins! I am also a first generation college student graduate from my family.
