

Faculty Biography

Natalie Laudicina

Teaching Disciplines:

Anatomy and Physiology

Research Interests:

I use animation modeling to reconstruct birth mechanisms in fossil and extant primates, including hominins. I love digging in the dirt to collect fossils and I have spent multiple field seasons in Wyoming (Eocene primates) and at the Neanderthal cave site, La Ferrassie in SW France. During my holidays I excavate shipwrecks in the Florida Keys.

Personal Interests:

Traveling, reading, cooking, listening to classic rock, and playing with my golden retriever, Freddie Stardust.

Fun Fact:

My favorite book series is The Wheel of Time by Robert Jordan.

FACULTY
