Teaching Disciplines:

Anatomy and Physiology

Teaching Philosophy:

My teaching philosophy embodies a learner-centered approach to help students better understand human anatomy and physiology. I value open communication and aim to foster respect among all members of the learning community with the hope of inspiring a new generation of collaborative and innovative health professionals and scientists.

Scientific Interests:

Comparative neurobiology, sensory systems, and circadian biology.

Research Publication Links:

<https://www.sciencedirect.com/science/article/pii/S0376635716300559>

Community Service:

I work with community members to aid people without permanent housing or food security.

Personal Interests:

Hiking, sailing, downhill skiing, American Civil War history, poetry, and golden retrievers.

A Fun Fact:

I am hopelessly devoted to the Detroit Lions.
