

## *Faculty Biography*

# Tyler Wood

### **Teaching Disciplines:**

Anatomy & Physiology

### **Teaching Philosophy:**

I employ a student-centered learning approach in which I guide students through a variety of paths as they pursue needed information. I promote critical thinking for a greater understanding and encourage students to reach out on their own to learn even more.

### **Research Interests:**

My research focuses on how prey animals use their senses to detect environmental cues and determine the degree of risk posed by potential predators. I am currently interested in isolating the compounds from predator odors that prey use to evaluate risk.

### **Personal Interests:**

I love spending time with my fiancée and our families. I spend much of my free time hiking local parks, doing nature photography, hunting, fishing, and testing recipes in my kitchen.

### **Just A Fun Fact:**

I have a huge movie collection. I love anything action, historical, sci-fi, or fantasy.

## VISITING FACULTY

### DEGREES:

Ph.D. (Biological Sciences)  
2020 Bowling Green State  
University

M.S. (Biology) 2016 Indiana  
University-Purdue University  
Fort Wayne

B.S. (Biology) 2012 Indiana  
University-Purdue University  
Fort Wayne
