# Blackboard Collaborate Ultra sessions from the Blackboard You can launch Blackboard

How to join session from a course:

Collaborate Ultra sessions are listed within courses in the app. Access a course, tap Collaborate under Course Materials, and select a session.

- The Course Room is a default session in Collaborate Ultra. If your instructor disables this room, it will appear in the app as Locked.
- Tap an available session to launch it in your device's mobile browser. You'll join the session as a participant.
- Collaborate might ask you for permission to use your device's camera and microphone. Allow access to continue in the session.

Apps needed:

1. A web browser
   You will be directed from the app to a web browser to join the session.
   Collaborate is supported on these devices and browsers:
   - Android: Chrome browser
   - iOS 11+: Safari browser

2. The Blackboard app
