

Windows 11 Reminder: Replace Incompatible Computer(s) Before October 15

Laker

GVSU IT is seeking to complete the university-wide Windows 11 upgrade by **October 15, 2025**, when Microsoft ends support for Windows 10.

We have been communicating the need to replace incompatible computers for several months.

Our review shows the following computer(s) assigned to you are still in use and **not compatible** with Windows 11:

Device Information

Please replace this device by October 15, 2025. **After October 31, unsupported Windows 10 computers may be subject to removal from the campus network or remotely disabled.**

Next Steps:

- Visit the [Technology Acquisition inventory](#) stock page to review the full lineup of in-stock computers and peripherals. When ready to order, complete a [Technology Acquisition Internal Service Delivery](#) (ISD) in Workday.
- Select the desired stock item(s) from the catalog. Pricing is displayed per line item.
- After the ISD is approved by the Cost Center Assistant & Manager, the order will be processed.

If you have any questions about Windows 11, please contact IT Services via the [Service Portal](#), at it@gvsu.edu or 616-331-2101.

Thank you,
