

INSTITUTIONAL DRUG & ALCOHOL POLICY

It is a privilege to participate in athletic activities at the intercollegiate level. It is believed and hoped that the implementation of this drug testing and education policy will serve to benefit all connected with intercollegiate athletics at Grand Valley State University (GVSU). Further, it is hoped that through this policy participants in intercollegiate athletics will be better students and athletes and will be better able to make individual, informed, and intelligent decisions with reference to drug and alcohol usage, both now and in the future. This policy will adhere to university policy and NCAA banned substance list when considering drugs to include in testing panels. Every participant on the intercollegiate athletic team sponsored by GVSU shall be subject to random testing while enrolled in and participating as a student-athlete at GVSU. The Head Coach will have the responsibility of informing his or her student-athletes of their selection for drug testing.
