

STUDENT-ATHLETE ADVISORY COMMITTEE

The Student Athlete Advisory Committee (SAAC) is an organization made up of a diverse group of student athletes from all of the varsity sports here at GVSU. With the goal of bringing all of our sports together to engage with each other, the community, as well as different things right here on campus. We are made up of at least two representatives from each team that will meet up one Monday in each month to hear the ideas and plans we have. Then each team's representative shares that information with their respective teams. With everything getting back to normal I encourage everyone to come out this school year and see what SAAC has to offer. As President my goal is to change the narrative of SAAC, unfortunately SAAC has scared people away for a variety of reasons. Some of those reasons being it's boring, too much work, don't have the time, etc. That's fine if you feel that way, but also give us a chance to make you rethink those statements. It's a new year and a new start to SAAC, helps us give SAAC a new start as well! We welcome anyone and everyone so if interested talk to your team representative or coach and come see what we are about!

President:

Damon Wesley
