## Interested in supporting Michigan Science Olympiad?

What began as a grassroots assembly of science teachers is now one of the premier science competitions in the nation, providing rigorous, standards-based challenges to nearly 7,000 teams in 50 states.

# 2026 MSO Career Exhibitor List

Here's a simple way to start a conversation: "Hi, my name is [first and last name]. I'm a student interested in learning more about careers related to science and technology. I'd love to hear about your organization and what skills are helpful in your field." You might follow up by asking questions like: What classes or activities would you recommend for someone interested in this career? What skills are most important in your work? What do you enjoy most about your job? What might surprise students about your industry? What advice do you have for middle or high school students who are exploring career options? Be ready to share your interests, favorite subjects, or activities you enjoy. Spend a few minutes at each table, be curious, and don't be afraid to talk with people from fields you may not know much about—you might discover something new!
