## Discover Your MAJOR Over Break!

Winter Break is almost here. Time to take a well-earned rest. Also a great time to step back and do some major exploring! Here are some easy steps you can do from home:

### Take the [PathwayU](#)

### Consider an [Exploratory Course](#)

Changes to your schedule can be made until the first week of the next semester. Have you considered an exploratory course? Email or meet with an Exploratory Advisor to review.

### Complete an [Informational Interview](#)

As you return home, consider your network! Make a list of everyone you know (family, friends, friends' parents, neighbors, etc). You'd be surprised how connected you already might be! Pick a connection or two who works in a position that interests you to interview. You can find guidance and sample questions on the [Career Center website](#).
