- March 19-January 11: Registration Drop and Add

Major of the Month

Health Communication

The Health Communication major offers a strong foundation in the liberal arts, health sciences, and general communication, as well as specialized coursework in advertising, public relations, journalistic and public relations writing, and visual media. It is deeply concerned with the examination of the issues surrounding health-in-society, and emphasizes critical thinking regarding those issues. To find out more, check out [their website](#) or schedule time to talk with the [Health Communication advisor](#).
