JULY 2025

MONTHLY UPDATE

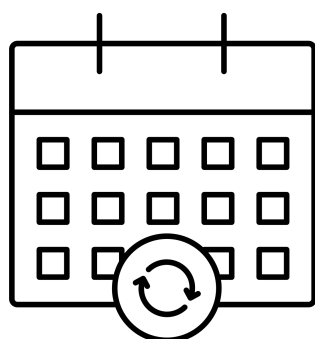

June Project Update Recap

On June 5, faculty and staff gathered for a Workday Student project update that covered recent accomplishments, key design decisions, and upcoming priorities as we move toward the December 2025 design completion.

The session also included updates from the Academic Foundation, Admissions & Recruitment, Student Records, Curriculum & Advising, Financial Aid, Student Financials, Data, Integrations, Reporting, and Security workstreams.

If you couldn't attend, the presentation and video recording are available on the [Workday Student Project Updates webpage](#).

Workday Academic Progress Report Replacing Degree Works

Currently students, advisors, and faculty use DegreeWorks (MyPath) to track degree progress. Starting in January 2027, GVSU will begin to use Workday's Academic Progress Report (APR), which includes tools for academic planning and registration.

In March 2027, students will register for the Fall 2027 and Winter 2028 semesters in Workday. Important to note is that registration for Summer 2027 classes will still be done in Banner. Thus, there will be a transition period where we will be temporarily using both Banner and Workday.

For more information about this change, visit the [Academic Progress Report webpage](#).

Leader Network Launches to Help with Workday Student Transition

Assistant/Associate Deans and key Advising and Student Affairs leaders make up the new [Workday Student Leader Network](#). This group will meet every other month with the project team to prepare for the transition to Workday. Leaders are currently identifying faculty and staff to serve as [Workday Student Liaisons](#).

Learning to Speak Workday: Curriculum & Advising Workstream

Each month, we'll share key terms to help you get familiar with the language of the Workday project.

The [Curriculum and Advising Workstream](#) team designs how GVSU students will plan, track, and complete their academic journey in Workday. They focus on academic progress reports, degree requirements, course planning, registration tools, and advising functionality.
