Q42 - What was the highlight of your graduate degree program?

What was the highlight of your graduate degree program?

My cohort, program faculty members, and the classes.

The cohort based model of the CSAL program

Developing relationships with my cohort and the opportunities for field experiences.

My graduate assistantship

The cohort model in the CSAL program

Q43 - What could be improved for your graduate degree program?

What could be improved for your graduate degree program?

Senior support for the program director.

Some professors for this program are amazing while others are terrible. Depending on the professor you have, your class will either be really beneficial and you'll learn a lot or it'll just be more of a waste of time. The inconsistency makes it challenging to recommend the program to other students and I would NEVER complete this program if I didn't have a GA that covered all of my expenses.

Better performance/communication from certain professors.

More clarity, better organization, academic quality could improve greatly, and the professional development opportunities through the degree program were not very present or high quality.

Graduate Assistantship stipends.

Career Consultant at IU

Enrollment Center Specialist

Q53 - Any final comments and/or suggestions regarding your graduate education experience at GVSU?

N/A

Please hire professors that are just as concerned about teaching students at a graduate level and not only concerned about their own research! I understand that there needs to be a balance of these areas but for so many of my classes I learned very little, received NO feedback on the work I turned, and the emails I sent to my professor were NEVER answered for the two years I had them. It's a waste of time taking classes with professors like this.

N/a

I think this degree program was worth it because of my great experience with my graduate assistantship. However, I was a bit disappointed in most of the degree requirement courses. However, I did really enjoy my elective courses.

Q42 - What was the highlight of your graduate degree program?

1) Meeting incredibly gifted professors who were amazing mentors and became highly respected colleagues and friends. 2) The opportunity to meet other professionals who care very deeply about education and learning from them.

Completing the project.

Meeting professions in the field currently.

Q43 - What could be improved for your graduate degree program?

A restructure of the EDF courses. The only course I found helpful was the EDF class that prepared me for my Master's Project. The rest were a complete waste of my time and energy. I would've preferred instead to take other EDL classes that would be more practical in building my administrative tool box.

Since I was already an active administrator. The field experience felt redundant and much like busy work. I felt I was simply regurgitating my day in a formal manner to check boxes. Additionally, the 660 class I took hamstrung me for my project compared to my peers who had already completed their first chapter in 660. My 660 class was hybrid and did very little in progressing me toward my project.

Nothing at the moment.

Q53 - Any final comments and/or suggestions regarding your graduate education experience at GVSU?

COIVD or NO COVID....there should be something offered to graduates!!! A scheduled time to walk across a stage and get a picture should NOT be a problem to safely organize. As hard as I have worked and the sacrifices that were made in order to reach this incredible milestone should at the very least provide an opportunity for acknowledgement by both myself and a few close friends and family members who have made the journey with me! Shame on GVSU!!!

Q42 - What was the highlight of your graduate degree program?

Completing my project was the highlight of my degree program.

XXX is a FABULOUS instructor and one of the best I've seen. I've been in my field for a number of years before returning for my graduate degree and her knowledge and the challenges were worth the money! I took every class I could with her.

My cohort and faculty.

Q43 - What could be improved for your graduate degree program?

I think there could be more variety in the courses offered within the program.

Unfortunately I took two fully online courses with XXX and his instruction was not at the caliber that XXX was in terms of challenge, knowledge, relevance and understanding how it relates to the Student Affairs professional career today.

Offering higher stipends for graduate assistants.

Q42 - What was the highlight of your graduate degree program?

Expanding my knowledge and skills; applying what I learned to my classroom and seeing the benefits for my students.

I had one professor who was very helpful and kind and was truly invested in teaching us all she knew.

The project and practicum courses. These courses are when I got the most support from my professors and could tell that they truly cared about our learning and making sure we were successful. The feedback I would get on assignments in these courses were excellent.

Q43 - What could be improved for your graduate degree program?

Most GVSU professors do a pretty good job of keeping their political views private, but their views are still sometimes apparent. If they seek to be truly fair, they should aim for objectivity.

I feel like a lot of the courses were extremely similar to my courses that I took in my undergrad. I even used the same textbook for one of my graduate courses that I did in my undergrad.

Feedback from faculty on assignments/papers, as well as the amount of time to receive grades or feedback. Until I completed a practicum class, I got very little feedback provided on assignments.

Whether I did well or not, it is nice to know what you did or did not do well in. Also, there were some courses I took where I did not receive a grade in time to know if the next time I did a similar assignment I needed to make changes or not.

Q42 - What was the highlight of your graduate degree program?

Internship

The highlight of my graduate degree program was the relationships built between my professors and other students in my program. We completed learning labs, which really gave us a connection to one another.

Being able to learn in the field.

The professors in the school counseling program made my experience one that I appreciate greatly. I do not think I could have received better training to become a school counselor anywhere else.

Q43 - What could be improved for your graduate degree program?

I wish we would spend more time on counseling skills- both and theory and practice

The only course that I did not have a great experience with was SW 600. All of my EDC courses were above and beyond my expectations.

Having more faculty of color.

Nothing I can think of at the moment.

Q53 - Any final comments and/or suggestions regarding your graduate education experience at GVSU?

None

The school counseling program at GVSU has truly been a blessing for me. The staff have gone above and beyond to build relationships with the students in the program and help them succeed. I never thought a program could have such an impact in my life. I will strongly recommend the GVSU school counseling program to others who seek to become a school counselor.

N/A

As a part time graduate student, I felt a little disconnected from the student life in general - many extracurricular events or meetings were held during the day when work hours made it difficult to attend.

Q42 - What was the highlight of your graduate degree program?

My thesis

Working with the professors/the courses required. The majority of classes I took were directly relevant to my teaching position and areas of interest. Professors were engaging, supportive, and challenged students.

Working in my field

Q43 - What could be improved for your graduate degree program?

n/a

I can't think of much. I enjoyed the hybrid aspect (pre-COVID) as I was working full time and the online courses were also well done (pre-and currently during COVID)

XXX should not be in charge of helping graduate students. I have never had a more unreliable or unprofessional professor.

Promotion to special education coordinator

Q53 - Any final comments and/or suggestions regarding your graduate education experience at GVSU?

Thank you. Go Lakers!

Graduate school through Grand Valley has been a wonderful experience! I feel like I engaged in a meaningful course of study, the program was designed very well, and expectations were explained thoroughly. I have grown as a professional through the courses and I could take them at a pace that I could financially support and worked with my full time work schedule and second job.

Q42 - What was the highlight of your graduate degree program?

I was in a cohort for the TESOL program and it was amazing. Every professor I worked with helped me immensely. This program has made me a better educator for my first grade ELL students that I work with each day. XXX and Dr. XXX were the absolute BEST and working with them made me want to become a professor.

The highlight was passing my MTTC test and project!

Several of my courses were enjoyable and widened my worldview.

Q43 - What could be improved for your graduate degree program?

Continue to allow for a Hybrid Schedule. Some people were far away and just liked into our classrooms, that was really cool and helpful.

The program should focus more on strategies to use in teaching ELLs. The TESOL certification is meant for that purpose, and the theory behind it isn't the major focus for those enrolled.

EDF 660 really should be a prerequisite for all other courses. Many of my courses required me to read, summarize, and review research papers, and initially I found it very frustrating as I was not familiar with this style of academic writing. I took EDF 660 almost last, and finally it all made sense. I really wished I had taken it much earlier on so I didn't have to figure out how to interpret research papers by myself.
