## **SOME QUESTIONS AND ANSWERS ABOUT YOUR APPLICATION AND SUBSEQUENT PROCEDURES**

You are about to submit an application for field placement to the College of Education. Many students have asked the following questions regarding what happens once the application has been received. We hope that you find the following information helpful as you wait to hear about the decisions which need to be made by the College of Education office.

**Question: How long will it be before I know whether or not I've been accepted?**

**Answer:** All applications are carefully reviewed. Therefore, it may be as many as six weeks before you will hear from the College of Education. A letter indicating the decision will be mailed to you at the local address given to us on your application. You will also receive information regarding New Student Orientation.

**Question: When can I register for my Teacher Assisting and its required courses?**

**Answer:** Admitted student will be provided authorization to register for their teacher assisting courses after attending New Student Orientation. All applicants regardless of admission status will be invited to attend New Student Orientation.

**Question: Once I have been accepted into the College of Education, when will I be informed of my Teacher Assisting placement?**

**Answer:** It takes several weeks for your Placement Specialist to facilitate placements for all College of Education applicants. You will learn of your tentative placement by mail and/or email as the placements are secured.

**Question: What does a "tentative placement" mean?**

**Answer:** You will receive a form from the College of Education informing you of your tentative placement. You are required to complete an interview with the Cooperating Teacher and/or Principal with the school to which you will be tentatively assigned. If you are accepted for that field placement, the mentor teacher and/or building administrator will sign the placement form. The student will return the placement form either by mail or email to College of Education. If for some reason, the first interview does not result in a placement, the Placement Coordinator will locate a second placement for you.

**Question: How should I conduct myself during the interview?**

**Answer:** Dress professionally as though you were going for a job interview. Answer all questions honestly and clearly. It is also good idea to refer to their website prior to the interview to familiarize yourself with the district and to take copies of your résumé to the interview.

**Question: When should I have CPR/First Aid training completed?**

**Answer:** CPR (Adult/Child) and First Aid training should be completed during your final semester of Student Teaching and needs to be taken through the American Red Cross, American Heart Association, Medic First Aid, American Safety and Health Institute (ASHI) and the National Safety Council to qualify.

**Question: When do I take my Subject Area Tests for teacher certification?**

**Answer:** Subject Area Tests should be taken when your majors, minors and/or endorsement coursework have been completed.

Pursuant to federal law, the Family Educational Rights and Privacy Act of 1974, as amended, (FERPA) requires, subject to specific exceptions, Grand Valley State University to have written permission from its students before releasing any information from a student's educational record.

The academic requirement of Grand Valley State University's College of Education mandates that each of its students complete teacher assisting and student teaching field practicum. In order for field placements to be made by the College of Education, it must be permitted to disclose students' records to school districts, which are prospective placement sites for the students to complete their practicum requirements. Student records include all educational records maintained by the University on behalf of the student. Further, post students' graduation from Grand Valley State University, we are frequently asked to provide employment recommendations. In order for these recommendations to be made by the College of Education, we also need to have permission granted to disclose student records maintained by the University on behalf of the student.

This consent does not require the release of such educational records, if, in its sole discretion, the University deems it unnecessary to do so, nor does the release of educational records guarantee my placement at any school district.

\_\_\_\_\_ I authorize a designated representative of Grand Valley State University to release my educational records to school districts in which I may be an applicant for a paid position, including but not limited to the position of teacher. This consent does not require the release of such educational records, if, in its sole discretion, the University deems it unnecessary to do so for the purpose of employment outside of the University.

I acknowledge that I may review my educational records maintained by the College of Education provided I submit my written request to the Dean of the College of Education three (3) business days in advance and that such review will take place between 8:00 a.m. and 5:00 p.m., Monday through Friday on days Grand Valley State University is open for business. The University's policy on the Family Educational Rights and Privacy Act of 1974, as amended, as stated in Section 209 of the Student Code shall govern all other aspects of my educational records and Live Scan results.
