 - Criminal activity on or near a GVSU campus

Open, Remote, Cancelled, Closed

- **Open:** The University's normal operating condition. Students, faculty and staff should assume the university is open unless advised otherwise.
- **Remote:** The most common reason to shift to remote status would be for weather related reasons. Classes will shift to remote delivery whenever feasible. Classes that cannot be delivered remotely will not be held.
- **Classes Cancelled:** Only classes are cancelled. The remainder of the University is open as normal.
- **Closed:** Classes and campus events will not be held. The university would normally only close for significant and unanticipated events. It is not anticipated the university would close for weather related events.
 - During inclement weather, faculty **may** notify students of a class cancellation or tell students that anyone choosing not to attend due to the weather and road conditions will not be penalized. **These notifications are typically sent via email.**

- MFA adds more security to accounts by requiring two or more verification methods:
 - Something you know (your password)
 - Something you receive (a code)
- With MFA, if someone guesses or steals your password, they still need the second factor to access your account making unauthorized access more difficult
- GVSU uses the MFA application called Okta Verify.
- Learn more about MFA at: www.gvsu.edu/it/studentmfa
- Questions about MFA: email it@gvsu.edu or call 616-331-2101.
