- MGT 268- This is the course that we reviewed fall 2017 and after the faculty member and Associate Dean presented to the OEC, we approved a pilot for fall 2018. We requested a follow-up report after the course was piloted. Briefly, section 20 of the course is a large (360 seat) lecture and break-out computer lab course with the online lecture portion of the course being taught by one faculty and the smaller computer lab portion of the course being taught by two other faculty members.

Here is a link to the report. Please take a few minutes to view the report before our meeting on Feb. 27.
