**SHORE Log: 1247-2021**

After a lot more thought, I have decided to link this item to the ongoing work of the New Programs Council (of which I am a member) and respectfully suggest that this issue should be addressed much further “upstream” than UCC. The New Program Council’s update of the form in SAIL should encompass this information and address this charge, and Curriculum change requests (at the UCC level) could reference or be linked to the market research presented in the New Program Prospectus and/or Proposal.

Course proposals (changes and new) should not need the level of granular detail regarding market research that should be present in the new program requests.
