Proposed Agenda (Meeting #13)

How this asynchronous meeting will go, in order to give you the most time to complete assignments:

1. First I need a motion and a second to approve the Consent Agenda.

2. Before 2:00 PM on Thursday 12/12/24, please go to the Google Comments document and review/comment on the things you are assigned. For each course you are assigned, please record a motion using your name, to which hopefully someone offers a second using their name (just as if we were in person).
**Barb will be monitoring and making sure that there is a CLEAR motion for each of the proposals.

3. Before 2:00 PM on Friday 12/13/24, return to the Google Comments Document and vote for the motions as written and highlighted, by stating your name, and writing "yay", "nay" or "abstain". Cara will assist in tallying the votes and generating minutes.
