Report from the Chair: 1) new program council recommended approval of 2 degrees: BS in Cybersecurity and Masters in Cybersecurity; 2) There is a question by Classics concerning the viability of a proposal where a single course could be altered to have a different focus with different titles in either the same or different semesters as a way of customizing several courses whose titles appear to be uninspiring…. After some discussion, it was decided by consensus that the UCC will consider such a proposal assuming the Syllabus of Record would be reflective of the course content, objectives, and Methods of Evaluation.
