

As the chair for our unit's personnel committee, I can ensure that the interests and perspectives of our unit are adequately represented in the decision-making process related to unit personnel matters. In addition, serving on this committee can only provide more valuable experience and skill that will continue to enhance my professional development. Furthermore, I will continue to gain a deeper understanding of the policies and procedures governing personnel matters within the college. Overall, serving on the CECI's College Personnel Committee can continue being a rewarding experience, allowing me to make a meaningful contribution to the institution, college, and unit, while gaining beneficial knowledge.

Thank you,

Melissa
