

Grand Valley State University

Retention and Graduation Rates for Graduate Programs

This document reports graduation rates for postbaccalaureate degree-seeking students at GVSU. Only students who were admitted directly to a degree program are tracked -- i.e. students who were initially admitted as non-degree graduate students and were subsequently admitted to a degree program are not counted here. Since many GVSU graduate programs admit students year-round, rates are compiled by academic year, but computed correctly based upon the specific semester in which they matriculated.

The graduation rates shown are cumulative -- e.g if a student graduated within 2 years, she is counted as a "success" in the 2-year graduation rate and also in the 3-year, 4-year, and successive rates. The retention rates here include graduates as "successes" -- once a student graduates, he is counted as "retained" from that date forward. In other words, a four-year retention rate of 52% means that, at the start of the fifth year, 52% of eligible students had either already graduated or were still enrolled in the program.

Please bear in mind that rates based on small denominators (e.g. if the value in the column labeled "N" is less than 20) are volatile and should be interpreted with caution. If you have questions about the data presented here, please contact Philip Batty (battyp@gvsu.edu; 1-8648).
