

Integrated Assessment of Stormwater Management Alternatives

Spring Lake Watershed

Ottawa County and Muskegon County, Project Atlas

Rein in *the Runoff*

Project funded by:

Project Leader:

Robert B. Annis
Water Resources Institute

Project Partners:

**Integrated Assessment of Stormwater Management Alternatives
Spring Lake Watershed
Ottawa County and Muskegon County, Project Atlas**

TABLE OF CONTENTS

Table of Contents	1-2
Section 1: Project Overview	3
Municipal Jurisdictions within the Watershed Boundary	4
Base Watershed Information	5
2005 - 2006 Composite Digital Orthophotograph	6
Section 2: Population and Land Use	7
Presettlement Land Cover	8
1978 Land Use and Cover	9
1992-97 Land Use and Cover	10
2006 Land Use and Cover	11
Population Density - 2000 Census Blocks	12
Housing Unit Density - 2000 Census Blocks	13
Percent of Impervious Surface Cover - 2006	14
Percent Change of Impervious Surface Cover - 2006, 1992-97 and 1978	15
Section 3: Underlying Watershed Characteristics	16
Digital Elevation Model	17
Hydrography	18
Glacial Drift Aquifer Characteristics	19
SSURGO Soils - U.S.D.A. Soil Texture	20

**Integrated Assessment of Stormwater Management Alternatives
Spring Lake Watershed
Ottawa County and Muskegon County, Project Atlas**

Section 4: Model Results and BMP Applications	21
Potential Site Locations for BMPs	22
ArcSWAT Sub-basin Boundaries	23
Water Quality Sampling Locations	24
PLOAD Results for Total Phosphorus Loadings with and without BMPs - 2006	25
PLOAD Results for Total Nitrogen Loadings with and without BMPs - 2006	26
PLOAD Results for Total Suspended Solids Loadings with and without BMPs - 2006	27
PAM Analysis: Projected Residential Growth for 2010, 2020, 2030, and 2040	28
PAM Analysis: Projected Results for Total Phosphorus Loading for 2010, 2020, 2030, and 2040	29
PAM Analysis: Projected Results for Total Nitrogen Loading for 2010, 2020, 2030, and 2040	30
PAM Analysis: Projected Results for Total Suspended Solids Loading for 2010, 2020, 2030, and 2040	31
Section 5: Shoreline Assessment	32
Shoreline Assessment Index Map	33
Shoreline Assessment - Area 1	34
Shoreline Assessment - Area 2	35
Shoreline Assessment - Area 3	36
Appendix A: Wetlands Assessment	A-1
National Wetlands Inventory	A-2
SSURGO Soils - Hydric Soils	A-3
Functional Wetland Analysis - Flood Water Storage	A-4
Functional Wetland Analysis - Retention of Sediment	A-5
Functional Wetland Analysis - Nutrient Transformation	A-6
Potential Wetland Restoration Sites	A-7
