

Iota, Iota, Iota Beta Delta Chapter

MANIFESTA

Triota encompasses all areas in the aspects of the advances of gender justice. We motivate and encourage the continuing support for equality through community activism and education at Grand Valley State University and the surrounding community. The goals of the Beta Delta Chapter of Iota, Iota, Iota at Grand Valley State University include the following:

- Encouraging feminist scholarship, activism, ideals, and dialogue both on campus and in the community. This incorporates educating our friends, family, peers, and the community about feminism, our goals, and ideals.
- An equal, open, and safe academic environment.
- Creating a life-long feminist community and curiosity.
- Recognizing the strength it takes to be conscious of opportunities for, and engagement in, activism while working to achieve scholarly goals.
- Awareness of the impact of personal engagement on society and social change.
- Developing an inclusive, supportive, multi-issue environment that challenges the gender binary and re-imagines gendered human experience. This includes providing feminist voices and engaging in activism which supports anti-racist, -sexist, -classist, -heterosexist, -violence, etc. movement in our community.
- Recognition of the intersectionality of all forms of oppression.
- Acknowledging that patriarchy affects men as well as women, and that male perspectives are welcomed and valued.
- Transforming the relationships between men, women, and people of all sexes and genders toward equality through radical activism and education.
- Changing perceptions of feminism through our activism and providing a space for questions and discussion.
- Networking and collaborating with each other, and organizations and groups in the community, in solidarity towards social justice.

We pride ourselves in being an open-minded and strong-willed group of students who aim to change the future of all peoples for the better.
