

COLLABORATION RUBRIC

Collaboration: Effectively work on a team.

Students will be required to complete a group project conducted over a significant portion of the semester.

This rubric assesses the teamwork of an individual student, not the team as a whole. Therefore, it is possible for a student to receive high ratings, even if the team as a whole is rather flawed.

Similarly, a student could receive low ratings, even if the team as a whole works fairly well.

This rubric is designed to measure the quality of the process, rather than the quality of the end product. As a result, evidence of the student's interactions on the team must include:

- the student's own reflections about their contribution to the team's functioning,
- evaluation or feedback from other team members about the student's contribution to the team's functioning, and
- evaluation of the student's contributions to the team's functioning by the instructor.
