- 11:45 am - Picnic Lunch

June 22 - Water Day

June 26 - Water Day!

Summer Is Near...

Parents,

Summer camp is beginning in just a few days... The weather is getting warmer and your child will be outside *a lot!* Please **dress** them *appropriately* each day.

Look at the calendar each morning!

- Sandals AND Gym Shoes
- Water Gear (swimsuit, towel, clean clothes)
- Water Bottle (labeled w/ child's full name)

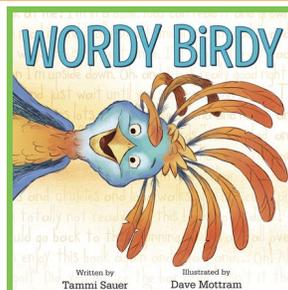

Please send your child to school with **sunscreen** on each day. We will re-apply sunscreen before going outside in the afternoon.

Ms. Alex is the most energetic and outgoing teacher. There is no doubt that she will be a phenomenal classroom teacher one day.

We are lucky to have had her at the center this past semester with us, and we wish her well in the College of Ed this fall! Ms. Alex began at the CEC as a volunteer in 2016, but came back in January (18) to join our team as an assistant teacher.

When she is not working here, she works at a summer camp, spends time with friends, and visits the beach!

Meet A CEC Teacher!

Read A New Book!

Wordy Birdy loves to talk, and talk, and talk, and talk. Which means that sometimes she doesn't pay attention to what her friends are saying or where she's going. That kind of thing can get a girl in trouble, as Wordy Birdy is about to find out.

So, Here's The News...

A year ago, Ms. Sarah heard about an opportunity to apply for a grant. The grant would allow us to buy \$4,500 worth of new equipment and toys for our center. She jumped at the opportunity, and we were bummed to hear we were not awarded the grant. Several weeks ago we received a surprising phone call congratulating us on receiving the grant this year! With that said, we are so excited to inform you that we have used these funds to update the center with new toys, games, furniture and outside equipment! The kids are so excited and have already begun using what we have!

Look at What We have been Learning In The Classrooms...

P1

Preschool 1 has been learning all about spring time and the weather. During their study, they have explored campus to find different colors of flowers and plants. They also collected samples of nature and created art from their findings.

P2

Preschool 2 spent several weeks studying about worms. They explored all the parts of worms and their life. They just begun studying the 5 senses and hearing in particular. They have been learning the structure of the ear, and how it works.

P3

Preschool 3 is studying art! They have been exploring the different paper types, ways to paint, and how to use different tools to create art work! They also took a walk around campus to look at the different art work being displayed.
