

### **PAS Program Malpractice Insurance Student Policy**

1. Clinical students are covered by GVSU's student Malpractice and Professional Liability policy while at assigned rotations.
2. Students must report any potential liability to the Clinical Team.
3. Clinical experiences outside of the GVSU PAS program are not covered under the liability policy. Students offered additional opportunities for learning experiences by preceptors or sites during scheduled breaks, weekends, or days off should plan to observe only and to advise the preceptor/site that they are not covered by GVSU's student Malpractice and Professional Liability policy in these instances.
